# **ODM EDUCATIONAL GROUP**

# ANNUAL CURRICULUM PLAN | SESSION 2024 - 25

The Annual Curriculum Plan refers to a comprehensive document or outline that provides a structured overview of the educational content and activities to be covered throughout an academic year. It serves as a roadmap for teachers, administrators, and educational institutions to ensure a coherent and balanced delivery of the curriculum.

#### Objectives of the ACP

- 1. **Learning Objectives**: This plan includes specific learning goals and objectives for each subject or topic. These objectives define what students are expected to know, understand, and be able to do by the end of the year.
- 2. Content Outline: It provides a breakdown of the content to be covered in each subject area. This may include subtopics, chapters, or units to be addressed during different periods of the academic year.
- 3. Assessment and Evaluation: It specifies assessment methods, such as tests, projects, or presentations, that will be used to evaluate student progress and understanding. It may also include information about grading criteria and the frequency of assessments.
- 4. Integration and Interdisciplinary Connections: In some cases, it will highlight opportunities for integrating subjects or making interdisciplinary connections. This promotes a holistic and interconnected approach to learning.
- 5. It serves as a guiding document for teachers; helping them stay organised and focused throughout the academic year. It provides a framework for instructional planning, content delivery, and assessment, ensuring a consistent and well-rounded educational experience for students.
- 6. Resources and Materials: It also includes the list of the textbooks, supplementary materials, and resources needed for effective teaching and learning. It ensures that teachers have access to appropriate resources to support the curriculum.

# Objectives | CBSE Curriculum

- 1. It aims to provide a comprehensive and holistic educational experience to students.
- 2. **Child-Centric Approach**: The CBSE curriculum places the student at the centre of the learning process. It recognizes the individuality, abilities, and interests of each student and aims to cater to their unique needs. The curriculum promotes student engagement, critical thinking, and overall development.
- Learning Outcomes: The CBSE curriculum focuses on clearly defined learning outcomes. It specifies the knowledge, understanding, skills, and attitudes that students should acquire at each grade level. Learning outcomes help in setting clear expectations and provide a framework for teaching, learning, and assessment.
- 4. **Interdisciplinary Approach**: The CBSE curriculum encourages an interdisciplinary approach, integrating knowledge and skills from multiple subjects. It emphasizes connections between different subjects, promoting a holistic understanding of concepts and their real-world applications.
- 5. **Life Skills and Values**: CBSE places significant importance on the development of life skills and values among students. The curriculum includes components that aim to cultivate values such as honesty, empathy, respect, and responsible citizenship. It also focuses on developing essential life skills such as communication, critical thinking, problem-solving, and collaboration.
- 6. **Inclusion and Diversity**: CBSE curriculum promotes inclusivity and caters to the diverse needs of students. It recognizes the importance of providing equal opportunities and adapting teaching and assessment strategies to accommodate learners with different abilities, backgrounds, and learning styles.

Understanding Govt.	<ul> <li>Gain a sense of why government is required.</li> <li>Recognise the need for universal adult franchise.</li> <li>Identify the various levels of government.</li> <li>Understand key elements that influence the functioning of democracy.</li> </ul>
Elements of Democracy.	<ul> <li>Identify the need to accommodate social and cultural diversity in a democracy.</li> <li>To justify why democracy is necessary for any functioning society.</li> <li>To understand how a democracy promotes acceptance of diversity.</li> <li>To appreciate that democracy forms a legal basis for equality and dignity of all citizens.</li> </ul>
Panchayati Raj- Local Government of Rural Areas.	<ul> <li>Understand local level of government functioning.</li> <li>Analysis the working of Panchayati raj and appreciate its importance.</li> <li>Understand different performed role within the local government.</li> <li>Explain the functioning of the Gram Sabha</li> </ul>
Local Government of Urban Area.	<ul> <li>Understand the various dimension of Urban Administration.</li> <li>Describe the functioning of urban local government bodies.</li> <li>Identify how the various levels of administration at the local level are interconnected.</li> <li>Observe the various forms of occupation.</li> </ul>
GEOGRAPHY (GET	TING AHEAD IN SOCIAL SCIENCE)
Name of the Chapter	Learning Outcomes
The Earth in the Solar System	<ul> <li>Understand the unique place of the earth in the solar system, which provides ideal condition for all forms of life.</li> <li>Distinguish between stars, planets and satellites.</li> <li>Recognise existence of life only on the earth.</li> <li>Identify asteroids and meteoroids</li> <li>Demonstrate the use of maps and globe.</li> </ul>
Latitudes and Longitudes- locating places on the globe.	<ul> <li>Identify latitudes and longitudes, e.g. poles, equator on the globe and the world map.</li> <li>Locate all the heat zones.</li> <li>Understand two motions of the earth and their effects.</li> <li>Distinguish between parallels and meridians.</li> <li>Analyse factor regarding how to locate places on the</li> </ul>

	globe.
Motions of the earth	Define the terms like rotation and revolution.
	Identify the concepts like orbits, axis, hemispheres.
	Interpret the causes of day and night.
	Infer the change in seasons.
Maps	Acquire knowledge about different types of maps.
	Compare and contrast the characteristics of maps and globes.
	Enable to explain scale, cardinal points and symbols.
Our Country-India	Locates states, union territories on the map of India.     Describe the location of India in terms of latitude and longitude.
	Appreciate political diversity.
	Comprehend broad physiographic division of India.
	Develop basic skills of map reading.
The Physical Division of India	To describe the location of India in terms of latitude and longitude.
	Describe the major physical features of the Indian subcontinent.
	To describe the main characteristics of the major physiographic divisions.
	To conclude that India's rich and diverse culture is the result pf its varied physical features.
India-Climate	Enable to distinguish between climate and weather.
	Identify the factors that control climate.
	Predict different types of season in India.
	Understand the concept of monsoons in India.

Name of the Chapter	Learning Outcomes
Ch 3: Matter	<ul> <li>Children will be able to:-</li> <li>Understand the physical nature of matter.</li> <li>Unable the students to differentiate between solids, liquids and gasses.</li> <li>Get aware of the inter-conversion of the state of matter.</li> <li>Understand the effect of heat on the change of state of matter.</li> </ul>
Ch 4: Elements, Compounds, Symbols and Formulae	<ul> <li>Children will be able to :-</li> <li>Get aware of the Classification Chart of Matter.</li> <li>Differentiate between metals and nonmetals</li> <li>Define Compound.</li> <li>Use Symbols to write the molecular formula of some compounds.</li> </ul>
Ch-5: Pure Substances and Mixtures; Separation of Mixtures	<ul> <li>Children will be able to:-</li> <li>Discuss elements and compounds as pure substances.</li> <li>Differentiate between mixtures and compounds</li> <li>Understand the methods of separation of various components from a mixture.</li> <li>Could apply specific method to separate a particular type of mixture.</li> </ul>
Ch 6: Air and Atmosphere	<ul> <li>Children will be able to:-</li> <li>Know of the various components of air and their composition.</li> <li>Get an idea of the importance of air for survival and other physical as well as chemical processes.</li> <li>know the uses of oxygen and nitrogen</li> <li>Get aware of the causes of the increase of carbon dioxide.</li> </ul>
Ch 7: Water	<ul> <li>Children will be able to:</li> <li>Define solute, solvent and solution</li> <li>Infer that solution is a homogeneous mixture of solute and solvent.</li> <li>Get aware of various examples of solutions.</li> <li>Could know of the causes of water pollution and suggest the ways to conserve water for the future.</li> </ul>
Biology:Ch 1: The Leaf	Will be able to know:  • the external structure of a leaf  • different kinds of leaf  • types of venation  • functions of leaf

Ch 2: The Flower	<ul> <li>Will be able to</li> <li>Understand and identify the different parts of a flower</li> <li>understand the process of fertilization</li> <li>know the different parts of a fruit and identify the different parts of a fruit.</li> <li>know the structure of a seed and understand the process of germination.</li> </ul>
Ch 3: Cell- The Structure And Functions	<ul> <li>The children will be able to know</li> <li>plant cell organelles and their functions</li> <li>animal cell organelles and their function</li> <li>diagrams of plant and animal cells</li> <li>difference between plant and animal cells</li> </ul>
Ch-4 Digestive System	<ul> <li>Will be able to know:</li> <li>organs of the digestive system</li> <li>function of each organ</li> <li>process of digestion particularly of carbohydrates proteins and fats</li> </ul>
Ch-5 Respiratory System	<ul> <li>Will be able to:</li> <li>know about the different organs of the human respiratory system</li> <li>difference between respiration and breathing</li> <li>mechanism of breathing</li> <li>common respiratory diseases</li> </ul>
Ch-6 Circulatory System	<ul> <li>Will be able to:</li> <li>Know about the main parts of the circulatory system</li> <li>the heart,blood and blood vessels</li> <li>process of circulation in the body</li> <li>component of blood</li> <li>types of blood groups</li> <li>blood pressure</li> <li>keeping the heart healthy to exercise and good food habits</li> </ul>
Ch-7 Disease and Hygiene	Will be able to know:  • types of diseases  • communicable diseases  • non communicable diseases  • mode of transmission of diseases  • ways to prevent communicable diseases and non communicable diseases

Website: www.odmegroup.org Email: info@odmps.org

Name of the Chapter	Learning Outcomes
	• hygiene
Ch-8 Habitat and Adaptation	<ul> <li>Will be able to:</li> <li>define habitat</li> <li>adaptation of plants and animals to aquatic habitat</li> <li>adaptation of plants and animals to desert habitat</li> <li>adaptation of plants and animals to mountain habitat</li> <li>adaptation of plants and animals to air habitat</li> </ul>
Physics Ch- 1 Matter	<ul> <li>The children will be able to</li> <li>Define matter</li> <li>Describe the composition of matter</li> <li>List the distinguishing properties of solids, liquids and gasses</li> <li>Classify the objects as solids, liquids and gasses.</li> </ul>
Ch-2 Physical Quantities and Measurement	<ul> <li>The children will be able to: define length, mass and time;</li> <li>express length, mass, time, temperature and area in proper units with proper symbols;</li> <li>measure length of objects using a ruler and a measuring tape;</li> <li>measure mass of an object using a beam</li> <li>balance and an electronic balance;</li> <li>measure time using a clock, a watch and a stop-watch;</li> <li>relate temperature of an object with its hotness or coldness;</li> <li>measure temperature of a person using a clinical thermometer;</li> <li>measure temperature of an object using a laboratory thermometer;</li> <li>measure area of a irregular object using a graph paper;</li> <li>convert a physical quantity from one unit into</li> <li>other related units</li> </ul>
Ch-3 Force	<ul> <li>describe force of friction with examples from daily life;</li> <li>describe situations where static / sliding/ rolling frictions are in play:</li> <li>explain advantage and disadvantage of</li> <li>force of friction in daily life situations</li> </ul>
Ch-4 Simple Machine	<ul> <li>The children will be able to:</li> <li>define what is a machine;</li> <li>describe six simple machines with examples</li> <li>from daily life:</li> </ul>

Website: www.odmegroup.org Email: info@odmps.org

Name of the Chapter	Learning Outcomes
	<ul> <li>describe different types of levers;</li> <li>define mechanical advantage of a lever,</li> <li>solve problems based on formula for mechanical advantage of a lever</li> </ul>
Ch-5 Light	<ul> <li>The children will be able to:</li> <li>give examples of evidence that light travels in straight lines;</li> <li>describe principle, construction and working of a pinhole camera;</li> <li>explain the factors on which the size of the image in a pinhole camera depends upon;</li> <li>explain the formation of shadows;</li> <li>explain the occurrence of lunar eclipse; explain the term umbra and penumbra</li> </ul>
Ch-6 Magnetism	<ul> <li>The children will be able to:</li> <li>state characteristics of a magnet;</li> <li>distinguish between magnetic and non- magnetic substances;</li> <li>state the properties of magnets;</li> <li>recognise the magnetic field around a magnet;</li> <li>recognise the Earth's magnetic field;</li> <li>describe different ways to make a magnet;</li> <li>distinguish permanent and temporary magnets: make a simple electromagnet:</li> <li>list precautions for care and storage of magnets;</li> <li>discuss loss of magnetic property due to heating, hammering and electricity</li> </ul>
