

COMMUNITY OUTREACH PROGRAM

We, as ODMIANS, want to help, uplift, and support those who are deprived of certain services and rights. It involves giving learning, social planning, health support, and other projects for their welfare. In order to invoke community feelings we request the children to go to a nearby temple and sanitize railings or hands of devotees or any other community work that seems relevant to the COVID situation .

Their act of selfless service will definitely go a long way in creating true human beings.

The students will upload photographs in the link given below. The link will be active till 25th November.
