

ACTIVITY-1

RIDDLES

A riddle is a statement, question or phrase having a double or veiled meaning, put forth as a puzzle to be solved. Riddles are problems generally expressed in metaphorical or allegorical language that require ingenuity and careful thinking for their solution. This activity will help in expanding student’s knowledge and exploring new skills at an early age.

Let’s learn something interesting in this month's activity.

INSTRUCTIONS-

1. Every student has to bring one riddle.
2. You can make Riddle cards at home.
3. Boys groups will ask riddles, one at a time, to girls and vice-versa. Common riddles should not be repeated in any group. Points will be awarded for each correct answer to the group. Winner group will be announced at the end of the activity.

Let the fun continue.....
