ODM Educational Group is much relieved to hear from you that our Parents and Students are well and in good health.

We are proud to announce that ODM Educational Group has launched following features in OMD Connect from 1st of August 2021.

1. Attendance Module.

a. With a single tap now students & parents will be able to track students daily attendance.
b. Teachers will be taking attendance for each period.
c. Weekly Report Analysis will be sent to Parents about child attendance via Email.
d. Students are requested to attend class sincerely.

2. Learning Management

We have shifted from ODM LMS Mobile App to ODM Connect & here we have built new Learning Management System where students will have following features.

a. StudyNotes
b. Worksheet
c. Teachers PPT
d. Question Bank.
e. Assignments
f. Homework
g. Learning Videos.
h. Class Videos.(ZOOM Videos)
i. Notes by Teachers
j. Textbook
k. Old Worksheet (These are the old worksheet which students need not to solve and upload, these are only for future references)

3. Exam Management

Here students & parents will be able to see the following details.

a. Exam Timetable
b. Marksheet
c. Report Card
d. Report Analysis. **(Class Highest , Class Average , Class Median , Class Lowest)**

4. Circular Module

All the official document, information & important notice & circular will be sent via ODM Connect Circular Module. **Parents are requested to check Circular section in ODM Connect for all other information about ODM Educational Group.**

5. Class Videos (ZOOM Videos)

Text
In this section of ODM Connect students will be able to see recorded session of online classes.
Note : Videos links are only valid from 7 days of conducted class.

Stay Safe! Stay Healthy!

Thanks & Regards

Aman Rouniyar

1. Here student will be able to see all the latest uploaded material of that particular subject on top.

2. If student want to study or get the list of particular chapter study material, then student can use the "Chapter Filter" to get the list.

3. Student can filter the Study-material by "Material Type" filter, and student will be able to see all the particular uploaded material.
(For example : If student has selected "StudyNotes", then student will able to see all the uploaded Studynotes)
