d

\* Map not to th

1. Colour the continents with different colour-

- a) N. America
- b) Australia
- c) Africa
- d) Antarctica

$$(1 \times 5 = 5)$$

## ORAL TEST

### 1. What is a map?

Ans. Map is a representation of the Earth drawn on a flat surface.

### 2. What is an atlas?

Ans. A book of maps is called an Atlas.

### 3. What is a scale?

Ans. A scale is the ratio between distances on a map to the actual distance on the ground.

### 4. What is a symbol?

Ans. A symbol is a shape or sign that is used to represent something.

### 5. What is an axis?

Ans. An imaginary line around which the earth spins is called its axis.

## CLASS TEST

### WRITE IN ONE WORD: (1×5 = 5)

1. The spinning motion of the Earth. **1. ROTATION**
2. The movement of the Earth around the Sun in a fixed path. **2. REVOLUTION**
3. In the month of June, the Northern Hemisphere has which season. **3. SUMMER**
4. What is caused due to rotation? **4. DAY & NIGHT**
5. What is caused due to revolution? **5. SEASONS**

### ANSWER THE FOLLOWING QUESTIONS:

1. How many different types of motions does the Earth have? (2)
2. What is meant by 'rotation' of the Earth? What is the effect of rotation? (3)
3. In the month of June it is summer in the Northern Hemisphere and winter in the Southern Hemisphere. Why? (5)

## **ANSWERS:**

**1. How many different types of motions does the Earth have? (2)**

**Ans.** The Earth have two types of motions - Rotation & Revolution.

**Rotation** - Movement of the Earth around its axis is called rotation.

**Revolution** - Movement of the Earth around the Sun along a fixed orbit is called revolution.

**2. What is meant by 'rotation' of the Earth? What is the effect of rotation? (3)**

**Ans.** When the Earth spins about its axis is called rotation of the Earth. This rotation of the Earth causes day and night.

**3. In the month of June it is summer in the Northern Hemisphere and winter in the Southern Hemisphere. Why? (5)**

**Ans.** In the month of June it is summer in the Northern Hemisphere and winter in the Southern Hemisphere because the North Pole is tilted towards the Sun, the South Pole is tilted away from the Sun.

## **SUMMING UP:**

- **Rotation**
- **Day & Night are caused by the rotation of the earth**
- **Revolution**
- **Seasons are caused by the revolution of the earth.**

# MAP SKILL P - 1 & 2

## 1. ODISHA OUTLINE

1. Draw slanting lines on the given map
  - a) Your native District
  - b) Indicate - the Capital of Odisha.
  - c) Point out the business Capital of Odisha.
