

SESSION : 11

CLASS :V

SUBJECT : (SOCIAL SCIENCE)

CHAPTER NUMBER: 6

CHAPTER NAME : Greenland - The Land of Ice and Snow

SUBTOPIC : Introduction, Climate, Vegetation and Wildlife

CHANGING YOUR TOMORROW

LEARNING OBJECTIVES:

Children will come to know about-

- The location and climate of Greenland.**
- Its vegetation and wildlife.**

ISLAMIC EDUCATION FOR THE FUTURE

GREENLAND

Greenland lies in the Frigid Zone of the Northern Hemisphere. It is the world's largest island country.

Location

Greenland is situated towards the northeast of Canada. The Baffin Bay and the Davis Strait separate it from the islands of Canada. Greenland is part of Denmark. Its capital is Nuuk (Godthab).

DID U KNOW

Eric, the Red from Europe visited Greenland gave the island its name.

Climate

Did you Know?

A magnificent phenomenon known as aurora borealis, or Northern Lights can be seen in the night sky during winters in Greenland.

- ❖ Arctic Circle passes through the southern part of Greenland.
- ❖ Greenland lies in the Frigid Zone in the Northern Hemisphere.
- ❖ This region has very cold climate.
- ❖ This region is also known as the Tundra region.
- ❖ 80 % of Greenland is always covered with ice.
- ❖ Icebergs are found in the sea. (Very large piece of ice floating in the sea)
- ❖ South-western coast of Greenland is the warmest part of the country.

Vegetation

Due to extreme cold climate, vegetation is very sparse in Greenland. It is only during the brief summer months that we can see some short grasses, shrubs, wild plants, herbs, lichens, mosses, currants, blueberries, and cranberries growing here.

Wildlife

Greenland is rich in wildlife. Animals, such as reindeer, polar bears, musk oxen, Arctic foxes, and huskies, are found here. Huskies are wolf-like dogs. They are used for pulling sledges. Many sea birds, such as gulls, puffins, and petrels, are also found here. The sea is rich in marine life. Whales, seals, walruses, and fishes like trout, salmon, and cod are found here.

WRITE DIFFICULT WORDS FROM PAGE 42 IN NOTEBOOK

LET'S REMIND

1. Greenland lies in the _____ of the Northern Hemisphere.
2. _____ is the world's largest island country.
3. _____ and the Davis Strait separate it from the islands of Canada.
4. Capital of Greenland is _____.
5. _____ percent of Greenland is covered with ice.
6. _____ are wolf - like dogs.
7. Whales, seals, _____, and fishes like _____, are found here.

1. Frigid Zone
2. Greenland
3. Baffin Bay
4. Nuuk
5. 80
6. Huskies
7. walruses, trout

1.Puffin
