**Demonstrative Adjectives**

The French demonstrative adjectives—or adjectifs démonstratifs—are words used in place of articles to indicate a specific noun.

In French you use ce to point out a particular thing or person. Like all adjectives in French, **CE** changes its form depending on whether you are referring to a noun that is masculine or feminine, singular or plural.

Demonstratives are words like "**THIS**" and "**THAT**" which are used in place of articles to refer to specific nouns.
