India and the world

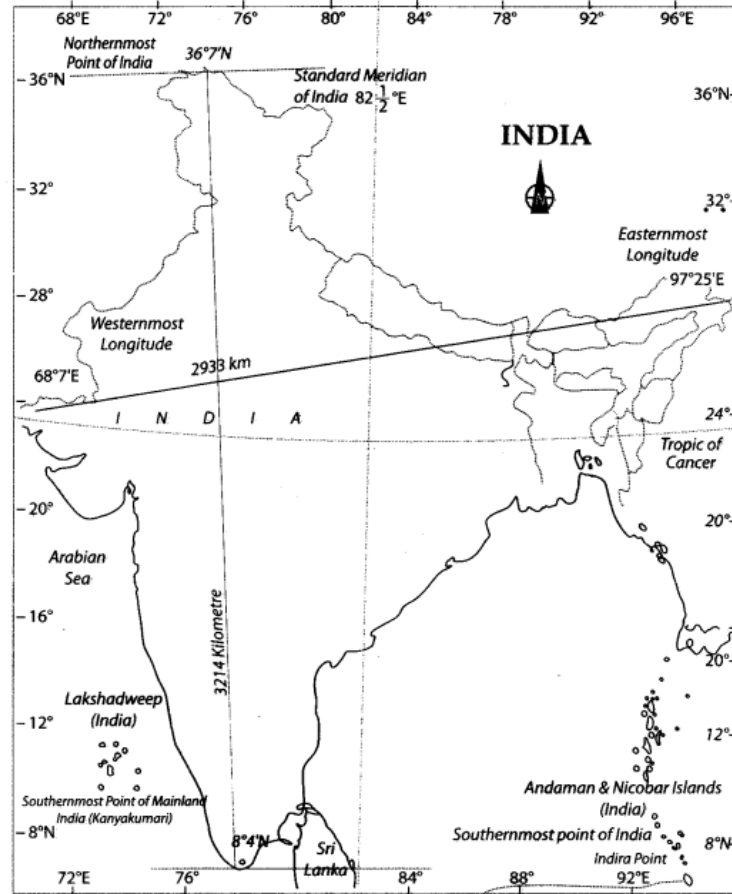

India Neighbours

India Location

✓ India lies entirely in the Northern Hemisphere. India's mainland extends between $8^{\circ}4'N$ and $37^{\circ}6'N$ latitudes and $68^{\circ}7'E$ and $97^{\circ}25'E$ longitudes.

✓ The Tropic of Cancer $23^{\circ}30' N$ divides India into two almost equal parts.

✓ To the southeast lie the Andaman and Nicobar islands in Bay of Bengal and to the southwest lie the Lakshadweep islands in Arabian sea.
