b) When you do your homework?
Brain

c) When you breathe? Lungs

Summary

- ❖ We have five sense organs like eyes, ears, nose, tongue and skin.
- ❖ The organs which are inside our body and that we cannot see are called internal organs.
Example- Heart, lungs, stomach, brain and bones.
- ❖ Their performance is vital for smooth functioning of our body.

LEARNING OUTCOME :-

- ❖ The learner will be able to know about the textual questions of the chapter.
