8. Best climate where wheats can grow. _____ **Hot and wet**
9. The largest wheat producing state in India. _____ **Punjab**
10. The longest river in North America. _____ **Mississippi**

B. ANSWER THE FOLLOWING QUESTIONS

1. What are the broad categories of grasslands in the world?

Ans. Grasslands growing in the temperate regions and grasslands growing in the tropical regions.

2. What are velds?

Ans. The temperate grasslands of South Africa are called velds.

3. What are the prairies?

Ans. The temperate grasslands of North America are called the prairies.

4. Write a note on the climate of the prairies.

Answer: The climate of the prairies is of continental type with extreme summers and winters. The annual rainfall is moderate here and is ideal for the growth of grass.

5. Why are the prairies so attractive for farming?

Ans. Prairies are so attractive for farming because -

- **The soil is very fertile.**
- **Water is available in plenty from the Mississippi and Missouri and their tributaries.**
- **The climate is suitable for cultivation of wheat for which USA produces so much wheat that it is called the “Wheat basket of the world”.**

6. What is the main occupation of the people in the western part of the prairies?

Answer: The main occupation of the people in the western part of the prairies is cattle rearing for beef and dairy products. It is so because -

- Towards the west, the prairies are hilly and soil is not so fertile.
- These areas are mainly used to rear cattle in large forms called ranches.
- The cattle are sent to slaughter houses in the cities for production of beef.

HOME WORK

Learn question answer of ch- 3, 5 & 8

LEARNING OUTCOME

The learner will be able to know:

- **On what they have written.**
- **Learn about the craft of writing.**
- **Reflect on whether their message matches their writing goal.**
