## LEARNING OBJECTIVE :

The students understand the concept of Singular and Plural nouns.

# Nouns: Singular and Plural

# What Are Singular Nouns?

A singular noun can be a place, a person, or a thing.

With a partner, take a look at the pictures and words below. What do you notice about each picture?

baby

watch

apple

child

Each picture tells us about one person, one animal, one place or one thing.

When we talk about one person, animal, place or thing it is a Singular Noun.

For Example:

a dog

a joker

# But, What do you mean by Plural Noun?

When we talk about more than one person, thing, place or animal we generally add 's' to the words and it becomes a Plural Noun.

For Example:

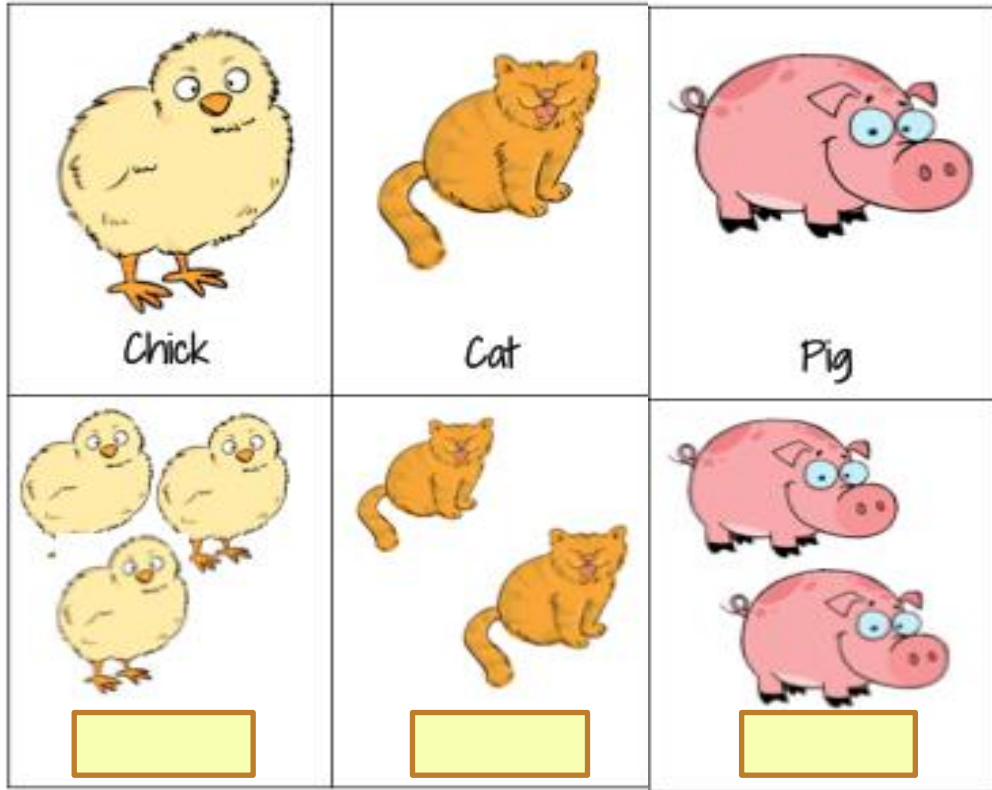

a car

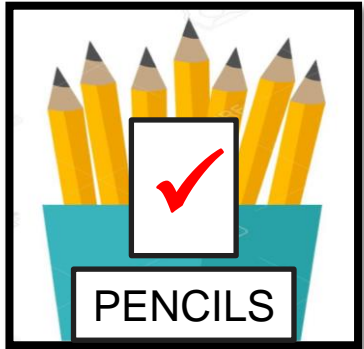

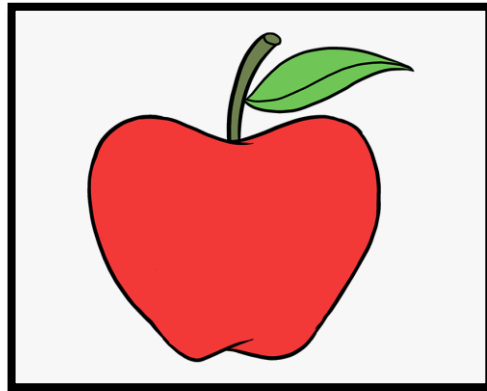

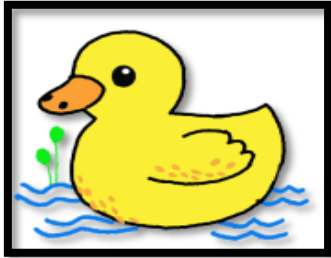

cars

# Some more examples:

# CHOOSE THE PLURAL NOUNS:

## LEARNING OUTCOME:

The teacher evaluates their understanding of the topic by asking some extra questions.
