- Be able to know the spellings of difficult words.

Get Set

Circle the things that are used to make vegetable soups.

carrot

mushrooms

cotton rolls

soap

onions

pepper

peas

hand mirror

beans

salt

silver foil

butter

Long time ago, a village had poor harvest and there was shortage of food.

One day three travellers came to the village tired and hungry. □
No one helped them with food.

The three travellers thought of a plan to arrange some food.

They took a huge pot, filled with water and lit fire under it.
One of the travellers took a stone and dropped into the pot.

The villagers watched them curiously.

As one of the travellers tasted the soup and wished he had some carrots to make it tastier, a villager got some carrots and put them in the pot. Gradually the villagers added some salt, spices, potatoes, onions, cabbages, mushrooms and so on.

Now there was enough soup for the entire village and everyone enjoyed the soup.
