## Earth Day Song

{tune: Twinkle, Twinkle}

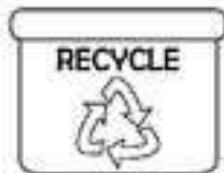

Earth Day, Earth Day,  
Comes once a year.  
But we should make our  
message clear.  
Love and clean our Earth  
each day.  
Make that plan a plan to  
stay.  
Earth Day, Earth Day,  
Comes once a year,  
Love and care for our  
Earth so dear.

## Earth Day

Our Earth is special, there is just one.  
It gives us water, soil, and sun.  
People and animals share the land,  
Let's all lend a helping hand!  
You can save water, and plant a tree  
Make a better home for you and me.  
Recycle things, don't throw away.  
Make every day an Earth Day!

- We live on the Earth.
- The Earth is shaped like an orange-round and slightly flat at the top and at the bottom.
- We share the Earth with plants and other animals.
- The Earth is called a blue planet because more than 71% of the earth is covered with water.
- A globe is a model of Earth.
- The Earth is covered with land, water and air.

# LAND:

- There are different kinds of lands.
- A large area of flat land is called a plain.
- Crops grow well on the plains.

**Plain**

## MOUNTAIN:

- Very high land is called a hill or a mountain.
- Some crops like tea and coffee grow well in hilly areas.

**Mountain**

## DESERT:

- A large area of land that has very little water and where very few plants grow is called a desert.
- Many deserts are covered with sand.

Desert

## WATER:

- A large part of the Earth is covered with water.
- There is water in the oceans, rivers, lakes and ponds.
- We need water to drink, cook our food, wash our clothes and keep ourselves clean.

- We must use water carefully and should not throw garbage and other wastes into the rivers and seas.
- It makes the water dirty.

**Garbage dumped in a river**

# Summary

- The Earth is shaped like an orange-round and slightly flat at the top and at the bottom.
- The Earth is called a blue planet.
- The Earth is covered with land, water and air.
- A large area of flat land is called a plain.
- Very high land is called a hill or a mountain.
- A large area of land that has very little water and where very few plants grow is called a desert.
- We need water to drink, cook our food, wash our clothes and keep ourselves clean.

## C.W

## Fill in the blanks

- 1) The Earth is covered with land, water and air.
- 2) Crops grow well on the plains.
- 3) Very high land is called a mountain.
- 4) A large part of the Earth is covered with water.
- 5) The Earth is called a blue planet.
- 6) We should not throw garbage into the river.

# Home assignment

- Draw and colour the picture of sunrise in your scrapbook.

## LEARNING OUTCOME:

- ❖ Students are able to know about the different types of land and the importance of water.
