

SESSION : 6
CLASS : III
SUBJECT : SCIENCE
CHAPTER NUMBER : 1
CHAPTER NAME : FOOD AND FEEDING HABITS OF ANIMALS
**SUBTOPIC : FEEDING HABITS OF SOME OTHER ANIMALS,
DOMESTIC ANIMALS NEED CARE, NEW WORD
AND WORD MEANING**

CHANGING YOUR TOMORROW

LEARNING OBJECTIVE :

To enable the learner to know about-

- the feeding habits of some animals
- why domestic animals need care.

LET'S RECAPITULATE

- Some animals eat plants are called herbivores. Some eat flesh of other animals are called carnivores and some eat both plants and the flesh of other animals are called omnivores.
- Domestic animals do a lot of work for us. They need energy-giving food.
- Some flesh-eating animals swallow their food, some tear and chew their food, some swallow and some gnaw.
- Some grass eating animals first swallow their food without chewing. Later they bring it back into their mouth and they chew it with their grinding teeth. The process is known as chewing the cud.
- Liquid food is lapped or sucked up by some animals like Dog and Cat.

FEEDING HABITS OF SOME OTHER ANIMALS

Elephant uses its trunk to -

- eat and drink, uproot grass and tear off branches from trees and to have shower.
- It also suck up water and then shooting water like a fountain into its mouth.
- It uses its trunk to have shower also.

Drinking water

Tearing off branch

Shooting water like a fountain

- An earthworm swallows soil which has parts of dead plants and animals in it.
- A butterfly has a long sucking tube. It uses this to suck nectar from flowers.
- Mosquitoes and leeches suck blood from the bodies of other animals.

Earthworm in the soil

Butterfly sucking nectar

Mosquito sucking blood

Leech sucking blood

DOMESTIC ANIMALS NEED CARE

- Domestic animals need to be protected as they are serving us.
- Food and water must be given to them in clean vessels.
- Their shelters must be cleaned regularly.
- Sick animals must be treated in time.
- We must always be kind to animals.

Feeding in clean vessel

Clean shelter

Sick animal treating

SUMMARY

- Elephant uses its trunk to eat and drink, uproot grass.
- An earthworm swallows soil which has parts of dead plants and animals in it.
- Domestic animals need to be protected as they are serving us
- We must always be kind to animals.

LEARNING OUTCOME :

The learner will be able to know about –

- the feeding habits of some animals,
- why domestic animals need care.

HOME ASSIGNMENT

- Write all the new words in rough notebook.
