Ans : Ruskin Bond children books

3. We stopped the car to look at the lovely trees.

Ans : Trees car

4. From the boat Salim saw a flock of birds flying away.

Ans: Salim Birds boat

INTRODUCTION :

Our earth is full of wonderful things.

- ❑ Things like car, buildings, roads and bridges are made by humans are called **man made things**.
- ❑ Things like animals, plants rocks, clouds, the sun, the moon and the stars given by nature to us are called **natural things**.
- ❑ Humans, animals and plants are **living things**.

Living things differ from non-living things in many ways.

Living things move

The movements of living things show that they are alive.

- Birds and insects fly, Dogs and cat walk, Fish swim. These animals move because they have life
- The plants like the touch-me-not show slow movement. The sunflower turns towards the sun.

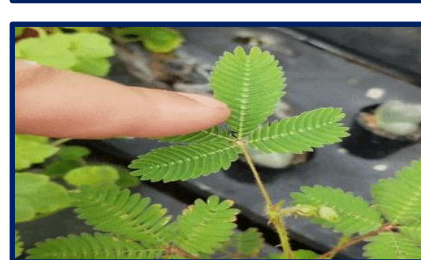

Birds flying

Fish swimming

Cat walking

Touch me not plant

Living things move

- ❑ However does a table which is a non- living thing cannot move by itself.

We can say that only ***living things*** move on their own. However, the non living things can not move on their own.

Table is moving not by itself

Arrange the words under the correct columns:

The Sun, The Moon, Buildings, Roads, Rocks, Planets, Cars, Computer

NATURAL THINGS

The Sun

The Moon

Rocks

Planets

MAN-MADE THINGS

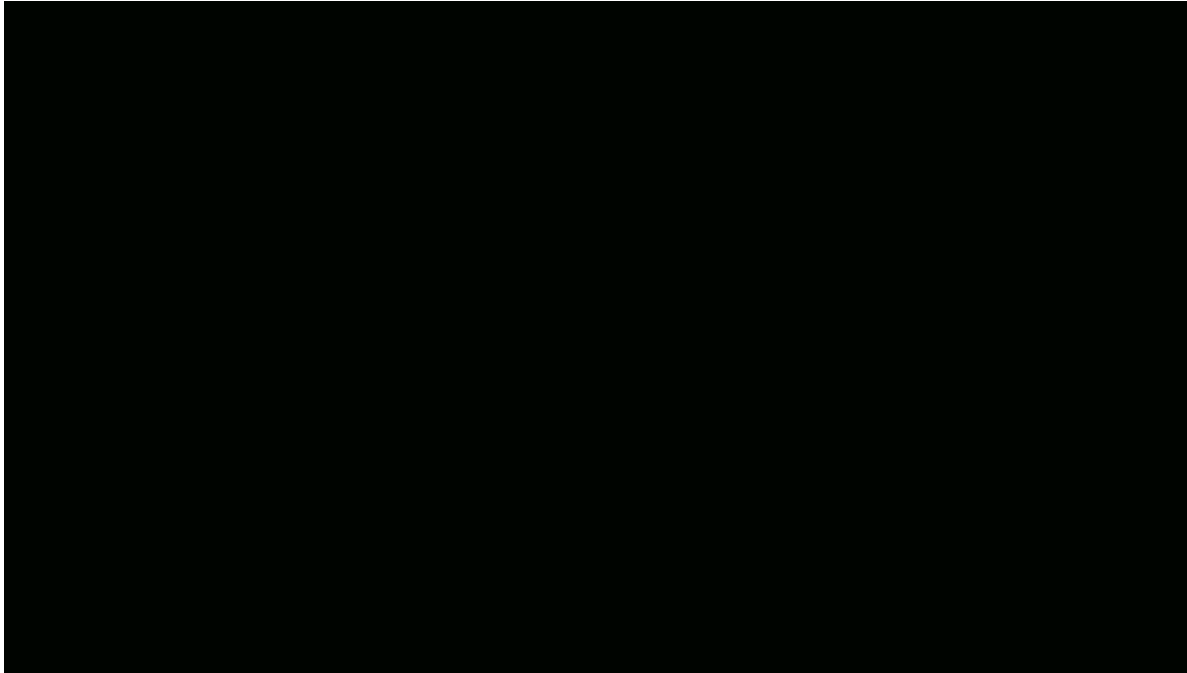

Buildings

Roads

Cars

Computer

Let's watch a video:

LEARNING OUTCOME :

Students will know -

- Man-made things, natural things and living things
- Living things can move by themselves whereas non-living things cannot.
