

SESSION :14
CLASS : III
SUBJECT : SCIENCE
CHAPTER NUMBER : 4
CHAPTER NAME : LIVING AND NON LIVING
**SUBTOPIC : LIVING THINGS BREATHE ,LIVING THINGS
REPRODUCE**

CHANGING YOUR TOMORROW

LET'S RECAPITULATE

Match the picture with the correct statements given in the box:

(A) I can walk (B) When touched, I move (C) I can't live without food (D) I can grow (E) I am happy and laughing. (F) I can't move of my own. (G) I can fly

(A) I can walk

(F) I can't move of my own

(D) I can grow

(C) I can't live without food

(B) When touched, I move

(E) I am happy & laughing

(G) I can fly

LEARNING OBJECTIVE :

Learners will be able to know -

- ❖ Living things breathe but non-living things do not.
- ❖ Living things reproduce where as non-living things cannot reproduce.

LIVING THINGS BREATHE

Animals and human beings cannot stay without breathing.

- ❖ They need air to breathe.
- ❖ Animals have lungs, gills, or air holes to breathe.

Only living things breathe.

Whereas things like teddy bear which are called non living do not breathe.

Human being breathe through lungs

Fish breathe through its gills

Butterfly breathe through air holes

LIVING THINGS REPRODUCE

All living things like human and animals reproduce.

- ❖ A bird lays eggs. Baby birds come out of the eggs
- ❖ New plants grow from seeds.
- ❖ Human beings and animals like cow and cats give birth to babies.

Only **living things reproduce**.

Where as **non-living things cannot reproduce**.

Baby bird comes out of eggs

Plants grow from seeds

Cow with calf

ANSWER THE FOLLOWING:

Q.1. How living things are different from non-living things?

Ans. Living things are different from non-living things in many ways.

- Living things move
- They grow.
- They need food
- They feel
- They breathe and
- They reproduce.

2. Why do living things need food?

- ❖ Ans. Living things need energy to grow, move and keep their bodies fit and healthy. They get energy from food.

3. How do animals reproduce?

- ❖ Ans. Animals reproduce by giving birth to young ones or by laying eggs from which young ones hatch.

Let's Summarise

- ❖ Our earth is made up of living and non-living things.
- ❖ Living things can move on their own but non-living cannot move.
- ❖ Living things grow but non-living things cannot.
- ❖ Living things need food but non-living do not .
- ❖ Living things can feel but non-living things cannot.
- ❖ Living things cannot live without breathing.
- ❖ Living things reproduce but non-living things cannot.

LEARNING OUTCOME :

Students will learn

- ❖ All living things breathe but non-living things do not breathe.
- ❖ All the living things reproduce but non-living things cannot.

HOME ASSIGNMENT:

- ❖ Draw an animal who breathe through gills/lungs/air holes in your note book.
