

**SESSION : 16**  
**CLASS : III**  
**SUBJECT : SCIENCE**  
**CHAPTER NUMBER : 8**  
**CHAPTER NAME : MAN:THE LIVING MACHINE**  
**SUB-TOPIC : ACTIVITY-GRID WORK AND CLASS TEST.**

---

**CHANGING YOUR TOMORROW**

---

## LEARNING OBJECTIVE :

Learners will be able to –

- assess their knowledge themselves.

# LET US RECAPITULATE :

## MULTIPLE CHOICE QUESTIONS:

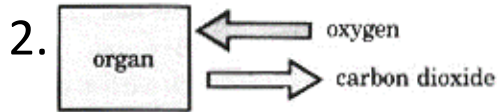

1. Our stomach expands when the food enters and contracts when it goes out. Thus the stomach can expand and contract. This is possible because our stomach is made of:

A) bones

B)  muscles

C) blood

D) iron

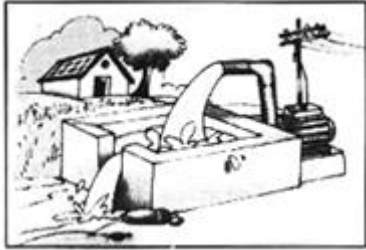

The diagram represents an organ which taken in oxygen and gives out carbon dioxide. Name the organ.

A) small intestine B) kidneys

C)  lungs

D) stomach

3.

The diagram shows a water pump which pumps water from one place to another place, to name an organ which performs similar function of pumping in our body. However, it pumps blood to all the organs in our body.

A. Lungs

B. Kidneys

C) Heart ✓

D) Stomach

4. Vijay got stomach ache. Which of the following could be a reason?

A) He ate food at seven in the evening

B) He drank water after eating food

C) He did not chew the food properly ✓

# Choose the correct answer from the options:

1. The human body is made up of \_\_\_\_\_.

- a.  organs   b. skin   c. cells   d. nerves.

2. \_\_\_\_\_ helps us to taste.

- a. eye   b. skin   c. ear   d.  Tongue.

3. \_\_\_\_\_ burns up the food to give energy.

- a. Hydrogen   b. carbon dioxide   c.  Oxygen   d. gas

4. \_\_\_\_\_ is the process of changing the food into a simple form.

- a. Breathing   b. walking   c.  Digestion   d. none of the above.

5. The lungs throw out \_\_\_\_\_.

- a.  Carbon dioxide   b. oxygen   c. sweat   d. urine

## Choose the correct answer from the options:

6. The undigested food goes to \_\_\_\_\_.
- a. Heart                      b. brain                      c. small intestine                      d. large intestine ✓
6. The heart pumps the blood to different parts of the body through \_\_\_\_\_.
- a. blood vessels ✓      b. tissues                      c. nerves                      d. bones.
7. The nerves system consists of \_\_\_\_\_.
- a. brain                      b. spinal cord                      c. nerve                      d. all of these. ✓
8. Our body is made up of \_\_\_\_\_ bones.
- a. 213                      b. 106                      c. 216                      d. none of these. ✓
9. The kidney removes \_\_\_\_\_.
- a. urine ✓                      b. sweat                      c. bones                      d. none of these.

## LEARNING OUTCOME:

Learners will able to –

- assess their knowledge themselves.

# HOME ASSIGNMENTS

- Make a list of accessories used by a cricketer in the Project Record.
