# CARING FOR THE YOUNG

- The mother bird after laying eggs sits on them to keep them warm.
- When the babies come out, they are weak featherless.
- The parents feed them and keep them warm and protect the babies from enemies and bad weather.

# CARING FOR THE YOUNG

- The parents look after the babies till their feathers grow and they learn to fly and look for food on their own.

**Always watch birds quietly and from a distance so as not to disturb them.**
