

SESSION	: 4
CLASS	: III
SUBJECT	: SCIENCE
CHAPTER NUMBER	: 5
CHAPTER NAME	: ANIMALS AND PLANTS
SUBTOPIC	: ANIMALS BREATHE THROUGH LUNGS,GILLS OR AIR HOLES,ANIMALS HAVE SENSE ORGANS ANIMALS REPRODUCE BY LAYING EGGS OR BY GIVING BIRTH TO YOUNG ONES.

CHANGING YOUR TOMORROW

LEARNING OBJECTIVE :

Learners will be able to know-

- ❖ How do animals and plants breathe?
- ❖ How animals and plants reproduce?

LET'S RECAPITULATE : Put (✓) against the correct statement and (✗) against wrong statement.

- ❖ Animals and plants are different from each other in many ways. ✓
- ❖ Mango tree roam about in a forest in search of food. ✗
- ❖ Elephant likes to eat sugarcane very much. ✓
- ❖ Cat catches mouse for its lunch. ✓
- ❖ Non-green plants make their food with the help of air , water and sunlight . ✗
- ❖ Mushroom is a green plant prepares its own food. ✗

ANIMALS BREATHE THROUGH LUNGS, GILLS OR AIR HOLES

- ❖ Animals like horses , tigers and whale breathe through their lungs.
- ❖ Fishes have gills which help them to breathe in water.
- ❖ Insects like cockroaches, flies and butterflies have air holes on their bodies which help them to breathe.
- ❖ Plants breathe through the tiny pores on their leaves.

LUNGS

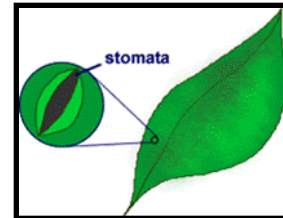

GILLS

AIR HOLES

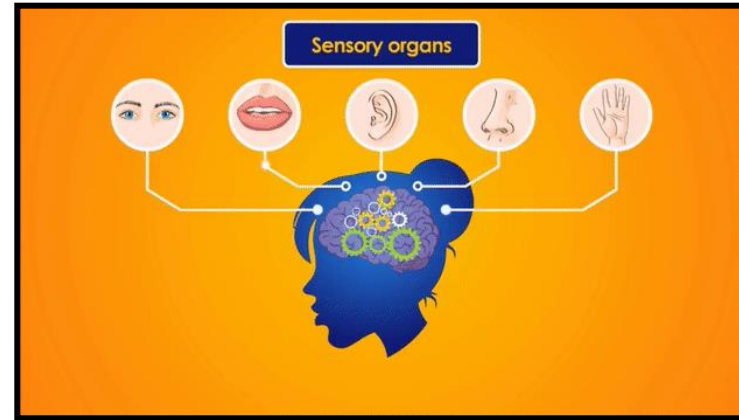

TINY PORES

ANIMALS HAVE SENSE ORGANS

- ❖ Animals have sense organs. They are skin, eyes, nose, ears and tongue.
- ❖ These organs help them to know about the world around them.
- ❖ Plants do not have sense organs.

ANIMALS REPRODUCE BY LAYING EGGS OR BY GIVING BIRTH TO YOUNG ONES

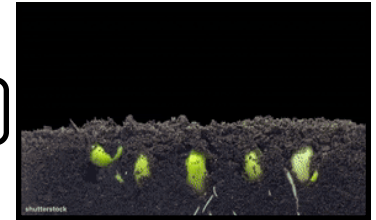

- ❖ Animals like birds and snakes lay eggs.
- ❖ Some animals like cats and cows give birth to their young ones.
- ❖ Plants produce seeds. These seeds give rise to new plants.
- ❖ Some new plants grow from a part of the plant like stem and roots.

SNAKE LAYING EGG

CAT WITH KITTEN

PLANTS FROM SEEDS

PLANT FROM ROOT

LEARNING OUTCOME :

Learner is able to know -

- ❖ Animals breathe through lungs , gills or air holes.
- ❖ Plants breathe through stomata.
- ❖ Animals reproduce by laying eggs or by giving birth to young ones.

DO YOU KNOW?

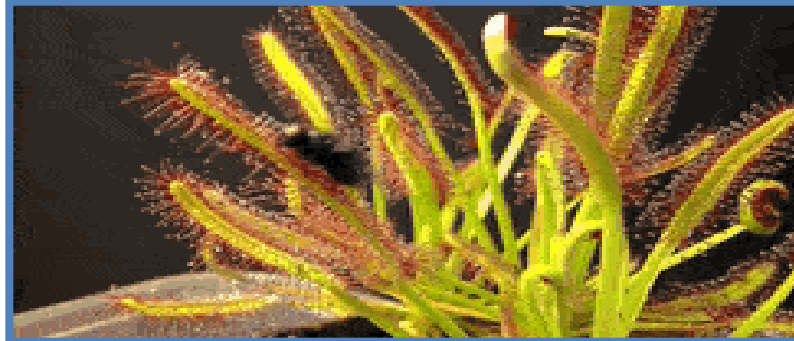

- Some plants eat insects. They are called insectivorous plants. Such plants are – Venus Flytrap, Pitcher Plant, Sundew etc.

Venus Flytrap

Pitcher Plant

Sundew
