TCA

OMENKY

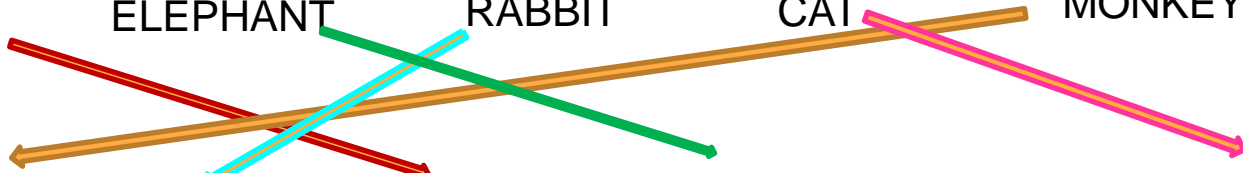

SQUIRREL

ELEPHANT

RABBIT

CAT

MONKEY

**WHY DO ANIMALS NEED
FOOD ?**

ANIMALS NEED FOOD TO GROW

- They move from one place to another in search of food.
- All animals need food. Animals need food to grow.
- Animals need food to stay healthy.

ANIMALS NEED FOOD FOR ENERGY

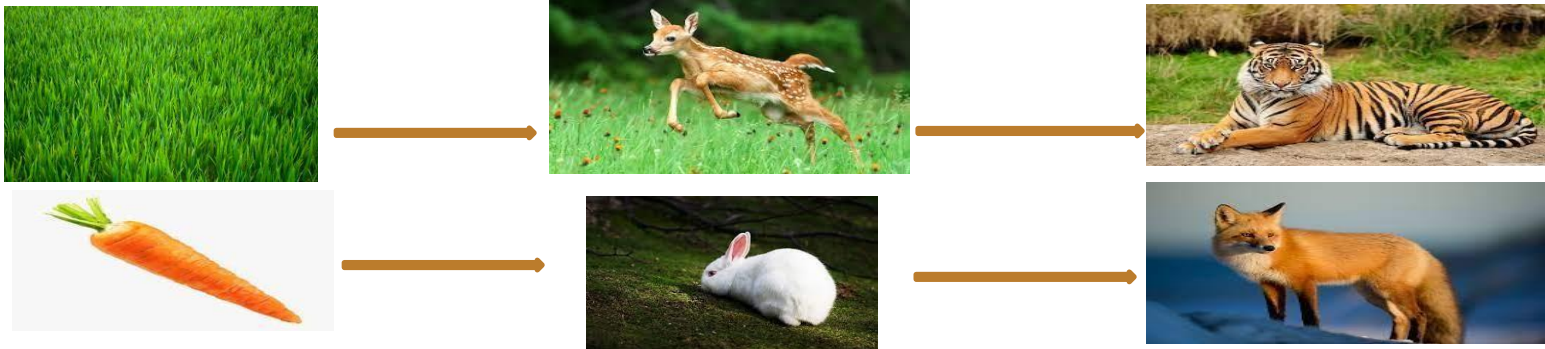

- Some animals help us with our work.
- They need energy to work. They also need energy to move about.
- They get this energy from the food they eat.
- All animals need food to grow, to work and to stay healthy.

FOOD CHAIN

- All animals depend on plants for food.
- Some animals eat plants. Some animals eat plant eating animals.
Thus, all animals depend on plants for their food. This is like a chain and is called a food chain.
- A food chain shows which animal eats what in nature.

Example:

Summary

- Animals need food to grow and to stay healthy.
- They move from one place to another in search of food.
- All animals need food to grow, to work and to stay healthy.
- Some animals eat plants. Some animals eat plant eating animals. Thus, all animals depend on plants for their food.
