

SESSION : 9
CLASS : III
SUBJECT : SCIENCE
CHAPTER NUMBER : 3
CHAPTER NAME : PRECIOUS SOIL
SUBTOPIC : REVISION WORK – 2
**Give answer in one-word, Write True or False,
Answer the following questions.**

CHANGING YOUR TOMORROW

LEARNING OBJECTIVE :

Learners will be able to –

- revise the topic and refresh their knowledge.

REVISION WORK - 2

1. Give answer in one-word.

a. It is home to millions of tiny insects. _____

Soil

b. The dead parts of plants and animals in the soil. _____

Humus

c. It contains cow dung and decaying leaves. _____

Manure

d. A sticky soil which is mostly used for making pots and toys. _____

Clayey

e. The living organisms that died millions of years ago and were pressed deep under the rocks are known as _____

Fossils

REVISION WORK - 2

2. Write True or False.

a. Loam is a mixture of sand and clay.

TRUE

b. The making of soil took ten years.

FALSE

c. Humus makes the soil rich and fertile.

TRUE

d. Sandy soil can hold both air and water.

FALSE

REVISION WORK - 2

3. Answer the following questions.

a. Why do farmers add manures to the soil?

- Ans. Farmers add manure to the soil because it is rich in humus and it makes the soil more fertile.
- All types of crops grow better when manure is added.

b. How do rocks change to soil? What are the different kinds of soil?

- Ans. In the beginning, the earth was covered with hard rocks.
- The action of the sun, the rain and the wind broke up the rocks to make soil.
- The different kinds of soil are – Sandy soil, Clayey soil and Loam.

Summary:

- ❖ Soil is formed by the breaking up of rocks.
- ❖ Soil is home to millions of tiny insects.
- ❖ Parts of dead plants and insects are called humus.
- ❖ Manure contains cow dung and decaying leaves.

LEARNING OUTCOME:

Learners are able to–

- revise the topics and refresh their knowledge.

HOME ASSIGNMENT:

Learn and revise Chapter 1, 2 and 3.
