Toll Free: **1800 120 2316**
Sishu Vihar, Infocity Road, Patia, Bhubaneswar- 751024

LEARNING OBJECTIVE :

Learners will be able to know -

- ▣ the importance of a house
- ▣ requirements of a good house
- ▣ how to take care of the house.

LET'S RECAPITULATE

- We must remember and follow safety rules.
- Accidents are unexpected events that can happen at anytime and at any place. We have to be careful to avoid accidents.
- Following simple safety rules will help to avoid accidents in the classroom, on the playground, on the road and at home.
- After an accident, the first help that an injured person gets is called first aid.

HOME IS THE BEST

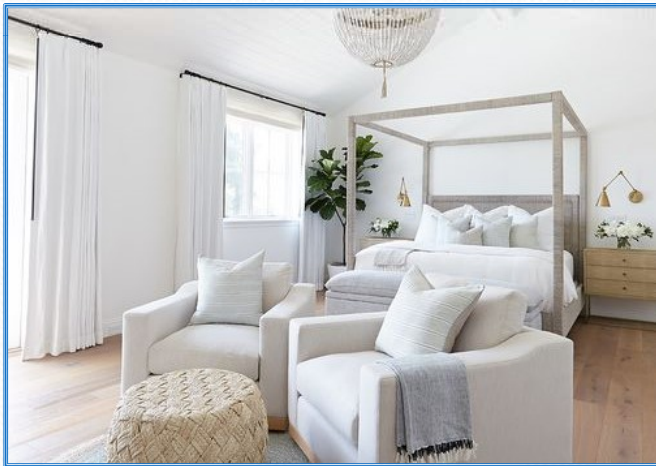

- Our house keeps us safe from the heat of the sun, the cold, the rain and the storm.

Home is the best

What is a good house?

- The rooms of the house should be airy and well built.
- A house should have open spaces like a veranda or a courtyard. These give us fresh air, sunlight and place to play in.

Airy room

Veranda with courtyard

- A house should have a well planned drainage system that carries dirty water away from the house.
- Doors and windows should be fitted with wire netting to keep flies and mosquitoes away

Drain carrying dirty water

Wire netting

How to take care of the house?

- ❑ Drains from the kitchen and the bathroom must be covered. Otherwise mosquitoes breed in uncovered drains or in dirty water that collects near the house. They spread diseases like malaria, dengue and chickungunya.
- ❑ Washbasins, toilets and bathrooms must be washed and cleaned daily.

Washbasins must be washed and cleaned daily

Drains must be covered

- Dustbins must be covered so that flies do not lay eggs in the rubbish.
- Garbage must be thrown in a proper dumping place and not on the road.
- Curtains must be washed regularly.

Covered dustbin

Garbage Dumping yard
