ANIMALS NEED FOOD TO GROW

They move from one place to another in search of food.
All animals need food. Animals need food to grow.
Animals need food to stay healthy.

ANIMALS NEED FOOD FOR ENERGY

Some animals help us with our work.

They need energy to work. They also need energy to move about.

They get this energy from the food they eat.

All animals need food to grow, to work and to stay healthy.

FOOD CHAIN

- All animals depend on plants for food.
- Some animals eat plants. Some animals eat plant eating animals. Thus, all animals depend on plants for their food. This is like a chain and is called a food chain.
- A food chain shows which animal eats what in nature.

Example:

LEARNING OUTCOME

- Students will come to know about the importance of food as well as about the food chain.

HOME ASSIGNMENT

Draw and label a Food Chain in Project Record.
