LEARNING OBJECTIVE :

- ❖ **Learners will be able to know about the feeding habits of some herbivore animals and also about the animal which lap milk.**

LET'S RECAPITULATE

- Animals need food to grow, to stay healthy and to get energy.
- All animals directly or indirectly depend on plants for food.
- A food chain tells us which animal eats what in nature.
- Some animals eat plants are called herbivores. Some eat flesh of other animals are called carnivores and some eat both plants and the flesh of other animals are called omnivores.
- Domestic animals do a lot of work for us. They need energy-giving food.
- Some flesh-eating animals swallow their food, some tear and chew their food, some swallow and some gnaw.

Let's Recapitulate

Fill in the following blanks selecting the answer from the grid .

1) _____ are plant eating animals.

Ans. Herbivores

2) _____ eat both plants and animals.

Ans. Omnivores

3) Animals need food to stay _____.

Ans. Healthy

4) _____ are flesh eating animals.

Ans. Carnivores

5) _____ needs energy giving food.

Ans. Elephant

6) Frog catches insects with its sticky _____.

Ans. Tongue

7) Snake _____ its food whole.

Ans. Swallow

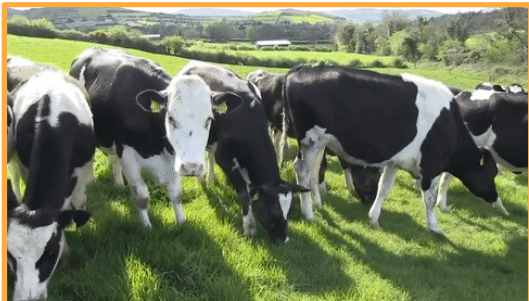

8) Squirrels _____ their food.

Ans. Gnaw

ANIMALS THAT EAT GRASS AND CHEW CUD

- ❖ Grass eating animals like cows, buffaloes and sheep first swallow grass without chewing.
- ❖ After some time they bring it back into their mouths and they chew it with their grinding teeth. The process is known as chewing cud.
- ❖ They also have biting front teeth to cut the grass while grazing.

COW SWALLOWING THE GRASS

SHEEP SWALLOWING THE GRASS

BUFFALOE CHWING THE CUD

ANIMALS THAT LAP MILK OR WATER

- ❖ Animals like cats and dogs lap milk or water with their tongue.

CAT LAPPING MILK

DOG LAPPING WATER

CHOOSE THE RIGHT ANSWER (Write in notebook)

1. Animals need food to (sleep/grow/bathe).

ANS. grow

2. Animals that eat the flesh of other animals called (carnivores, herbivores, omnivores)

ANS. carnivores

3. A frog has a long and sticky(tall/tongue/body) to catch insects.

ANS. tongue

4. Animals that chew the cud are mostly (carnivores, herbivores, omnivores)

ANS: herbivores

Match the animal with the type of teeth it has.

Column A		Column B	
1	tiger	→	very sharp and front teeth
2	squirrel	→	sharp, pointed and curved front teeth
3	frog	→	no teeth

LEARNING OUTCOME :

Students will come to know about –

- ❖ the eating habits of some animals and like cows, buffaloes etc.**
- ❖ the animals that lap milk or water**

HOME ASSIGNMENT

- Write what do you do with leftover food in rough notebook.

THANKING YOU
