# Answer the following questions.

1. What are the things that make up your environment?

Ans- The word 'environment' refers to the surroundings in which we live. It includes natural features and human-made things. It includes landforms trees, animals and birds, people, buildings, vehicles and factories.

2. List three of your needs and three of your wants.

Ans- Our needs are food, water, air and shelter and wants are computer, a television, a mobile.

3. Mention three differences between living and non-living things.  
examples.

Ans:- The difference between living and Non-living things are:

- Living things grow.
- Living things can move.
- Living things need food.
- Non-living things do not grow.
- Non-living things cannot move on their own.
- Non-living things do not need food.

#### **4. What is pollution? Give three examples of pollution.**

Ans:- We dirty the environment by adding harmful substances to air, soil or water, it is called pollution.

The three main types of pollution are

- land pollution,
- water pollution
- air pollution.

#### **5. How can we take care of the environment?**

Ans:-The following are some things that we can do to protect the environment:

- Use garbage bins to throw waste.
- Use both sides of the paper. Do not waste paper.
- We can switch off lights and fans when they are not needed to save electricity.
- We can shut taps when not in use to save water.
