# Circle the odd one out in each row.

- |                   |              |                |            |
|-------------------|--------------|----------------|------------|
| • <u>cycle</u>    | scooter      | motorcycle     | car        |
| • boat            | <u>train</u> | ship           | steamer    |
| • <u>train</u>    | truck        | bus            | van        |
| • rocket          | aeroplane    | <u>tractor</u> | helicopter |
| • <u>rickshaw</u> | bullock cart | camel cart     | tonga      |

# Answer the following

**1. How do we decide on the means of transport to use while travelling?**

**• Ans- i. The distance we need to travel: If we need to travel long distances to reach a place, only trains, Aeroplanes or ships would be able to take us there.**

**ii. How much time we have: If we have to reach a place urgently, we will choose a faster means of transport, like an aeroplane, instead of a train or a ship.**

**iii. How much money we can spend: If we have less money to spend, we will choose a cheaper means Of transport like a bus or a train, instead of an aeroplane, as air travel is expensive**

## **LEARNING OUTCOME :**

**Students will be know about different aniamals used for transport**
