round

QUIZ TIME

The Sun, the Stars and the Moon are _____ bodies in this space.

1. celestial
2. human
3. fat

celestial

The Horizon

- The place at which the land and sky appear to meet is called the horizon.
- Every time we come closer to the horizon it seems to move further away.

The Coast

- Land and sea meet at the coast.
- If we stand on the coast and face the sea, it will seem as if the water and the sky are meeting at a distance.
- This does not happen in reality.

The Sky

- Above the Earth is the sky. It looks blue though it is really not so.
- It is just a vast space surrounding the Earth.
- The sun, the stars and the moon are heavenly bodies in this space.

NEW WORDS

- **Atmosphere-** the layer of air surrounding the Earth
- **Coast-** a place where the sea and land meet
- **Horizon-** a place where the land and sky appear to meet
- **Astronaut-** a person who travels in space in spacecraft
- **Fleet-** a group of ship
- **Voyage-** a long journey in sea
- **Sailor-** a man who drive ship in water

Summary

- ❖ **Coast-** a place where the sea and land meet
- ❖ **Horizon-** a place where the land and sky appear to meet
- ❖ **Sky** is just a vast space surrounding the Earth.

HOME ASSIGNMENT

Write the coastal areas of Odisha in notebook.

LEARNING OUTCOME :

Learner will able to know

- **Know about coast**
- **Know about horizon**
- **Know about sky**
