# The Horizon

- Looking front distance, the land and sky seem to meet.
- But in reality, they do not meet.
- The place at which the land and sky appear to meet is called the horizon.
- Every time we come closer to the horizon it seems to move further away.

# The Coast

- Land and sea meet at the coast.
- If we stand on the coast and face the sea, it will seem as if the water and the sky are meeting at a distance. This does not happen in reality.

# The Sky

- Above the Earth is the sky. It looks blue though it is really not so.
- It is just a vast space surrounding the Earth.
- The sun, the stars and the moon are heavenly bodies in this space.

# NEW WORDS

- Atmosphere- the layer of air surrounding the Earth
