CHANGING YOUR TOMORROW

Recapitulation

1. What are the three parallel ranges of the Himalayas?
2. Which is the highest mountain range of the Himalayas range?
3. What is the other name of Himalayas?

Three parallel ranges

The Greater
Himalaya

- Himadri

The Middle
Himalaya

- Himachal

The Outer
Himalaya

- Shiwalik

The middle range of the Himalayas is called Himachal.

The Himachal Range lies to the south of the Himadri Range.

The region consist of forest covered mountain ranges, fertile and beautiful valleys.

Only some peaks of Himachal are covered with snow throughout the year.

Most people live in hill town such as Musoorie, Shimla and Darjeeling, or in valleys such as Srinagar, Nainital and Kangra.
