What is reflexive pronoun?

A reflexive pronoun comes when the subject and object refer to the same person or thing. Example: I don't need your help while I can do it myself. I cut myself when I was shaving. She blames herself for that incident.

What is an emphatic pronoun?

An emphatic pronoun refers back to another noun (or pronoun) in the sentence to emphasize it.

For example: The Queen herself attended the party.

(*The Queen* is the noun being emphasized. It is called the antecedent of the emphatic pronoun.)

When used for emphasis, a word like *herself* is called an emphatic pronoun.
