CHANGING YOUR TOMORROW

Gist of the story

- **Kapok Tree is the biggest tree in the Amazon Rainforest.**
- **The leaves of Kapok Trees are very large.**
- **The height of the tree is almost 200 feet.**
- **Water Lilies in Amazon Rainforest are about 3 metres wide.**
- **Suleiman is excited to know how Zaid would reach Amazon and what type of life he would have there.**

- **In Amazon Rainforest there are about 3,000 different varieties of fruit trees.**
- **Only 200 types among them are edible.**
- **Suleiman urged his brother to bring some photographs about different birds and animals that he sees there.**
- **Amazon is home to the largest number of animal and bird species.**

- **Zaid shows a number of spectacular pictures which holds the attention of Suleiman.**
- **There are over 300 different types of fish in the Amazon River.**
- **Piranhas, the flesh eating are one of them.**
- **To save himself from the bite of the insects Zaid has ordered 20 bottles of medicated cream.**
- **There are around 2 million species of insects found in that place.**
- **At the end Zaid is all set to go on the expedition for almost duration of about 1 year.**
