Gist of the story(Pg 25, 26)

This is the story of a boy named Raju, who had lost a chance to watch an important cricket match. One of his leg was broken and it was in plaster. He was sitting in an armchair and was very upset. His mother tries to make him feel relaxed through words and also advises him to not fidget in order to get well soon.

No words could make him feel relaxed because he had to miss the chance of watching a live test cricket match. The cricket wizard- Sachin Tendulkar was to play in that match. Though, his father tried to convince him that watching a live match in TV was much better than in a crowded stadium, but it was of no use to him.
