

**SESSION : 6**

**CLASS : II**

**SUBJECT : EVS**

**CHAPTER NUMBER: 14**

**CHAPTER NAME : HOW THE WHEEL WAS  
INVENTED**

**SUBTOPIC : INTRODUCTION AND IMPORTANCE OF  
THE CHAPTER, HOW TO MAKE A WHEEL**

---

**CHANGING YOUR TOMORROW**

---

## LEARNING OBJECTIVE :

- To enable the learner to know about the early human and how they invented the wheel.

## The Wheels on the Bus

The wheels on the bus go round and round,  
Round and round, round and round.  
The wheels on the bus go round and round,  
All day long.

The wipers on the bus go swish, swish, swish...  
The horn on the bus goes beep, beep, beep...  
The money on the bus goes clink, clink, clink...  
The bell on the bus goes ding, ding, ding...  
The driver on the bus says, "Move on back..."  
The doors on the bus go open and shut...  
The people on the bus go chatter and chatter...  
The baby on the bus goes, "Wah, wah, wah..."  
The dad on the bus says, "Shush, shush, shush..."  
The kids on the bus make too much noise...

## The Wheels on the Bus

The people on the bus go chatter and chatter...  
The baby on the bus goes, "Wah, wah, wah..."  
The dad on the bus says, "Shush, shush, shush..."

## Think and say

1. What the above rhyme is all about?

2. Which of the word is used repeatedly?

3. Think of a world without T.V, cars or computers.

4. How can you move from one place to another?

# HOW THE WHEEL WAS INVENTED

# Modern people

# Early people

## Let's Recapitulate

- Early people lived in forests and caves.
- Early people used animal skins, leaves and grass to cover their bodies.
- Early people ate roots, wild fruits and meat of animals.
- They ate the meat without cooking it because they did not know about fire and its uses.

- The early human lived in the forest and ate roots and fruits grew in the forests.
- When they hunted or killed small animals, they carried them in their back to their homes.
- But when they hunted large animals, like bison or elephant, it was not easy to drag or pull these animals along the ground over long distance.

- Nobody knows who invented the wheel. Perhaps, someone saw a log or a piece of wood from a tree roll down a hill.
- With that log it was easy to carry heavy things.
- With the passing of the time, early people realized that heavy things could move easily with the round logs.

- So, someone had the wonderful idea to cut the log into pieces and each of the pieces became a wheel.
- And the wheel was invented.

## SUMMARY

- Early people lived in forests and caves.
- When they hunted or killed small animals, they carried them in their back to their homes.
- But when they hunted large animals, like bison or elephant, it was not easy to drag or pull these animals along the ground over long distance.
- someone had the wonderful idea to cut the log into pieces and each of the pieces became a wheel.

# Fill in the blanks

1. Early people lived in **forest**.
2. It was difficult for them to drag **heavy** things over long distance.
3. By cutting the log into pieces, they invented **wheel**.
4. Early human ate **Roots and fruits**.

# HOMEWORK

**Draw and decorate your favourite vehicle which has wheels in the scrapbook.**

## LEARNING OUTCOME:

- ❖ The learner will be able to know about early people.
- ❖ They also learnt how the early people make wheels.
