# **LEARNING OBJECTIVE**

***The students will be able to***

- ✓ understand by reading***
- ✓ frame sentences independently***

Read the following paragraph and answer the questions.

Recycling is an important way of caring for our planet. Human beings use many new product every year and create a lot of garbage. By recycling the things we don't want, we can reduce the need to make new things. Metals, glass and paper can be easily recycled.

Apart from recycling, there are other things that we must do to save our natural resources. We should reduce the amount of plastic, paper, electricity and water that we use. Keep plastic bags carefully and reuse them instead of buying new ones. Write on both sides of a paper and do not print things unless necessary. We should remember to switch off fans, lights and electrical appliances when they are not being used. Bathe using a bucket instead of a shower and avoid letting tap water go waste. It is a good idea to reinvent things from old material. This could be fun too! Old metal containers can be turned into food boxes, old glass bottles can be made into table lamps.

# Answer the questions.

1. How can we reduce the need to make new things?
2. How can we save electricity?
3. Write two ways in which we can save water?
4. Write two words from the passage which mean the same as rubbish.

Ans 1- By recycling the things we don't want, we can reduce the need to make new things.

Ans 2- We should remember to switch off fans, lights and other electrical appliances when they are not being used.

Ans 3- Bathe using a bucket instead of a shower and avoid letting tap water go waste.

Ans 4- waste

**Fill in the blanks.**

- 1. It is fun to \_\_\_\_\_ things'**
- 2. \_\_\_\_\_ is an easily recyclable material.**

**Ans 1- reinvent**  
**Ans 2- Paper**

THANK YOU!
