

# **WELCOME TO THE ONLINE CLASS**

**SESSION NO.: 6**

**CLASS: 4**

**SUBJECT: SCIENCE**

**CHAPTER NUMBER: 8**

**CHAPTER NAME: ANIMALS: HOW LIFE GOES ON**

**SUB TOPIC: ACTIVITY**

---

**CHANGING YOUR TOMORROW**

# LEARNING OBJECTIVE

**To enable the learner to:**

- **do an activity of making lifecycle of a butterfly by paper craft.**

# RECAPITULATION

- ❖ Animals reproduce in two different ways

By laying eggs

Giving birth to young ones

- ❖ Shedding of old skin or shell.

Moulting

- ❖ Largest aquatic mammal.

Whale

# ACTIVITY:

## Material required:

- Paper ( green/ any colour, 4 any size)
- Glue
- Scissors
- Pencil or Sketch pen for drawing
- Colour pencil for colouring
- White beads (optional)

# PROCEDURE

- Take a paper and cut it into round shape.
- Take another paper (green) and draw four leaves, cut it into the shape of leaves.
- Paste some white beads or small paper balls to show eggs on the leaf.
- Cut a paper into long narrow shape and wrap it around the pencil to form a caterpillar's body.
- For making pupa (chrysalis) stick a tube shaped green paper on the leaf.
- Take small square of paper and fold it into a zig-zag form to get the wings of butterfly.
- Make the body of butterfly on the paper and cut it out.
- You can also make the head of caterpillar for more creativity.
- Label the different stages of lifecycle of a butterfly.

# Let's Watch

# LEARNING OUTCOME

**The learner will be able to:**

- **do an activity of making lifecycle of a butterfly by paper craft.**

**THANKING YOU**
