

WELCOME TO THE ONLINE CLASS

SESSION NO: 2

CLASS: 4

SUBJECT: SCIENCE

CHAPTER NUMBER: 3

CHAPTER NAME: SAFETY FIRST

**SUB TOPIC: SAFETY ON THE PLAYGROUND, SAFETY IN
SWIMMING POOL & SAFETY ON THE ROAD**

CHANGING YOUR TOMORROW

LEARNING OBJECTIVE

Learner will able to

- **understand how accidents can happen at different places.**
- **deal with emergencies at playground, swimming pool and on the road.**

RECAPITULATION

What is an Accident?

- Accidents due to a fire in the kitchen can cause serious injury

- Look at the picture and identify the safety measure.

SAFETY ON PLAYGROUND

- Follow the rules of the game while playing. Wait for your turn at rides.

Picture Cards

My Turn

Your Turn

SAFETY IN SWIMMING POOL

- Use a swimming tube for swimming if you are not an expert swimmer.

SAFETY ON ROAD

- Follow traffic rules for your safety and the safety of others.

To avoid such accidents:

- Walk on the footpath.
- Cross the road only at the zebra crossing.
- Do not rush. Start in time.

SAFETY AT HOME

BURNS

- Accidents due to a fire in the kitchen can cause serious injury (or even death)
- To avoid such accidents one must not wear synthetic clothes in the kitchen. Such clothes catch fire easily.
- Gas stoves when not in use must be turned off.

ELECTRIC SHOCKS

- Do not touch electric fittings with wet hands.
- Do not go too close to table fans or heaters if they are on.
- If someone gets an electric shock or sees a spark, the main switch must be turned off immediately.

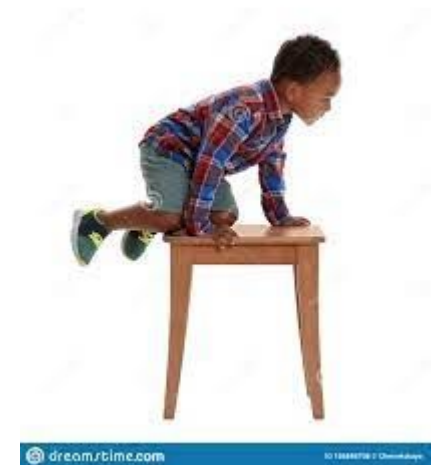

POISONING

- Accidental consumption of chemicals and medicines can cause poisoning.
- Poisonous chemicals should be properly labeled and kept away from eatables.
- Do not take medicine without asking an adult.

SAFETY AT SCHOOL

- Do not rush up or down the stairs. You may fall and hurt yourself and others.
- Do not climb on desks and chairs or throw things around.

SUMMARY

- **Accidents:** An unfortunate incident that happens unexpectedly and unintentionally, typically resulting in damage or injury.
- **Injuries at home are mostly caused by slipping on the floor, burns, electric shocks, and chemical poisoning.**
- **If someone gets an electric shock or sees a spark, the main switch must be turned off immediately.**
- **Do not rush up or down the stairs. You may fall and hurt yourself and others.**
- **Do not climb on desks and chairs or throw things around.**

Quiz Time

1. An unfortunate incident that happens unexpectedly is known as _____.

Ans: accident

2. Use a _____ to reach something placed high.

Ans: step ladder

3. If someone gets an _____ , the main switch must be turned off immediately.

Ans: electric shock

Homework

HOMework

- **Write any three safety measures you usually take at home, when you have an accidental cut.**

LEARNING OUTCOME

Learner will able to

- **understand about the stars and planets.**
- **distinguish between stars and planets.**
