POPULATION AS AN ASSET FOR THE ECONOMY RATHER THAN LIABILITY

Overview

'PEOPLE AS RESOURCE'

Population is an asset for the economy rather than a liability. Population becomes human capital when there is investment made in the form of education, training and medical care. In fact human capital is the stock of skill and productive knowledge embodied in them.

- 'People as resource " is referring to a country's working population in terms of their existing productive skills and abilities.
- Age group of working population of the country-15yrs.to 64yrs.
- Gross National Product
- Gross Domestic Product
- Human resources is the positive side of the large population
 - Human resources is different from other resources like land and physical capital:
