DIFFERENCE BETWEEN ECONOMIC AND NON-ECONOMIC ACTIVITIES

BASIS FOR COMPARISON	ECONOMIC ACTIVITY	NON-ECONOMIC ACTIVITY
Meaning	Economic activity refers to a human activity related to production and consumption of goods and services for economic gain.	Non-economic activity is an activity performed gladly, with the aim of providing services to others without any regard to monetary gain.
Motive	Economic, i.e. to earn money.	Social or psychological, i.e. out of love, affection, etc.
Money measurement	Measured in monetary terms.	Lacks money measurement.
National Income	Adds value to national income.	Does not affects national income.
Results in	Creation of wealth and assets.	Satisfaction and happiness.

DIFFERENCE BETWEEN MARKET AND NON-MARKET ACTIVITIES

Market activities	Non-market activities
Market activities are those activities which are performed for getting some remuneration.	Non-market activities are those activities which are performed for self-consumption.
These activities provide some profit.	These activities do not provide any profit.
These activities include the production of goods and services which are sold in the market for money.	These activities include the production of goods and services which are consumed by the producer or his family.
For example, An industrialist who runs a factory of steel and sells it in the market and earns some profit.	For example, A small farmer which cultivate various vegetables in a small plot like a garden for self-consumption.
