

# **WELCOME TO THE ONLINE CLASS**

**SESSION NO.: 3**

**CLASS: 5**

**SUBJECT: SCIENCE**

**CHAPTER NUMBER: 10**

**CHAPTER NAME: OUR NERVOUS SYSTEM**

**SUB TOPIC: SENSE ORGANS- THE EYE**

---

**CHANGING YOUR TOMORROW**

---

# LEARNING OBJECTIVE

To enable the learner to:

- identify the various sense organs found in the human body.
- learn the various parts and function of our eye.
- understand how to take care of the eyes.
- understand what will happen if we lose our eye.

## LET'S RECAP

- The brain needs a continuous supply of blood and \_\_\_\_\_.
- Watering of mouth is an example of \_\_\_\_\_ action.
- Reflex actions are controlled by the \_\_\_\_\_.
- The nerve which carry messages to and from the brain are \_\_\_\_\_ nerves.

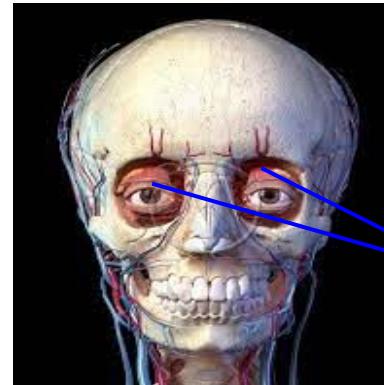

# SENSE ORGANS

- The organs which connect us to the outside world are known as sense organs.

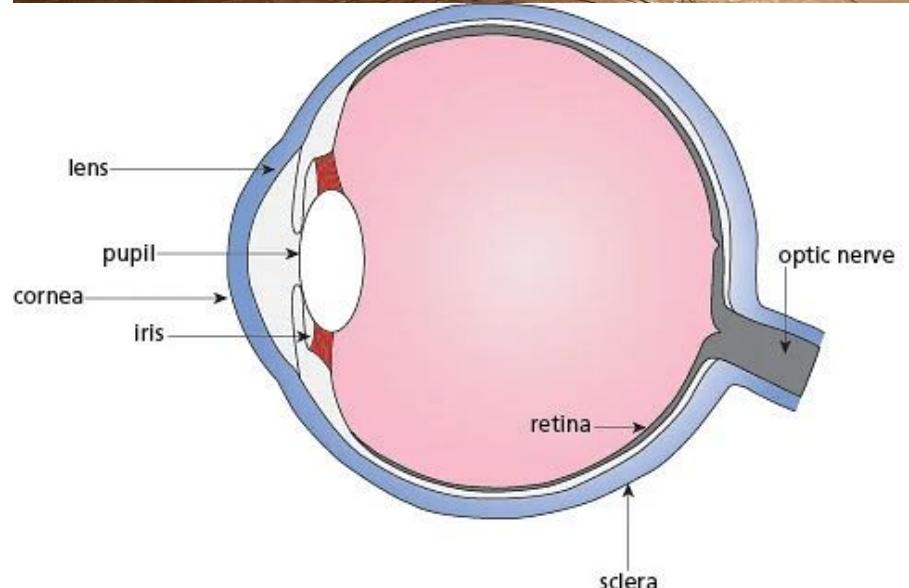

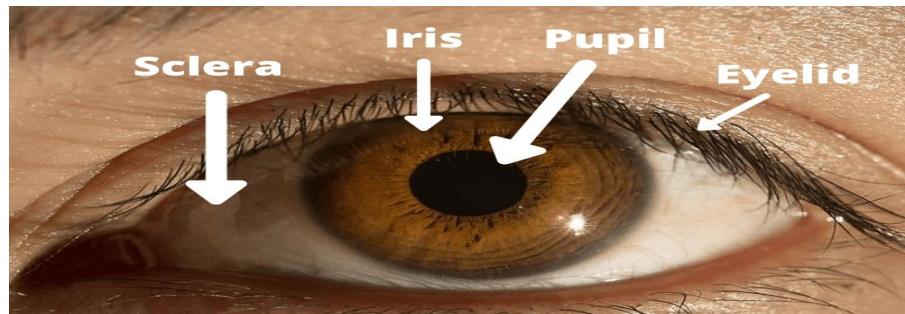

# THE EYES

- Each eyeball is safely set in a deep bony socket and is further protected by the eyelids and eyelashes.
- These help to keep dust and dirt out of our eyes.

# PARTS OF THE EYES

- **Cornea:** The outer bulging part of the eye is called as the cornea.
- **Iris:** It is the coloured part of the eye.
- **Pupil:** It looks like a black spot, is an opening through which light enters the lens.
- **Optic nerve:** The sensory nerve that connects the eye to the brain is the optic nerve.

# CARE OF THE EYES

- Wash your eyes regularly with clean water.
- Do not work in dim light or very bright light.
- Let the light fall from the left side of the reading material.
- Do not read in a moving vehicle. This will strain your eyes.

# CARE OF THE EYES

- Always sit at least 6 feet away from the television set.
- Do not watch TV or play games on the computer for long periods.
- Do not read while lying down.
- Sit erect and hold the book about a foot away from your eyes.

# CARE OF THE EYES

- Never rub your eyes with a dirty towel or dirty hand.
- Do not use any one else towel or handkerchief if you have an eye infection.
- Tell your teacher parents if you cannot read what is written on the blackboard.

# SUMMARY

- The organs which connects to the outside world through our senses are known as the sense organs.
- We should take proper care of eyes because it helps us to see the beautiful world.
- Eyes has different parts and each part has its own function.
- Eyes are one of the most important sense organs.

READY FOR A  
**QUIZ ?**

# 1. The coloured part of the eye.

**Ans: Iris**

## 2. Nerves that connect the eyes to the brain.

**Ans: Optic nerves**

### 3. The organs which connect us to the outside world.

**Ans: Sense organs**

# HOMEWORK

- **Do the oral Q & A of page no. 93.**
- **Do the questions A, B & C in your notebook.**

# LEARNING OUTCOME

**The learner will be able to:**

- identify the various sense organs found in the human body.
- learn the various parts and function of our eye.
- understand how to take care of the eyes.
- understand what will happen if we lose our eye.
