

Chapter- 4

THE ATMOSPHERE

WORKSHEET**Short Question: -**

Question 1.

How is good atmosphere essential for the living being?

Question 2.

How is air' useful?

Question 3.

Name the constituents found in air?

Question 4.

What is the percentage of nitrogen found in the air?

Question 5.

What is the percentage of Oxygen, Argon and Carbon dioxide in air?

Question 6.

How is nitrogen taken by the plants?

Question 7.

How is Oxygen produced which is taken by human and animals to breathe?

Question 8.

Which atmospheric layer has very thin air and light gases?

Question 9.

What is global warming?

Question 10.

What is temperature?

Question 11.

What is humidity?

Question 12.

What is wind?

Question 16.

Name the instrument which is used for measuring rainfall.

Question 17.

How are the winds named?

Question 18.

Who invented measuring unit of temperature as degree Celsius?

Question 19.

How do all living beings depend on the atmosphere for their survival?

Question 20.

What is greenhouse effect?

Question 21.

Explain how the oxygen and carbon dioxide balance is maintained in air?

Question 22.

Which layer the most suitable conditions for flying aeroplanes?

Question 23.

Which is the uppermost layer of the atmosphere?

Question 24.

Define insolation.

Question 25.

Describe the composition of atmosphere.
