

**MONTH : NOVEMBER**

**SESSION : 17**

**CLASS : V**

**SUBJECT : MATHEMATICS**

**CHAPTER NUMBER: CH.10, 11 & 12**

**CHAPTER NAME : DECIMAL, AVERAGE & SIMPLIFICATION**

**SUB-TOPIC : REVISION WORK – 2**

## **LEARNING OBJECTIVE :**

**Enable the students:**

- **to revise the chapters and get prepared for the assessment.**

# Revision Work

## I. SOLVE THE WORD PROBLEMS.

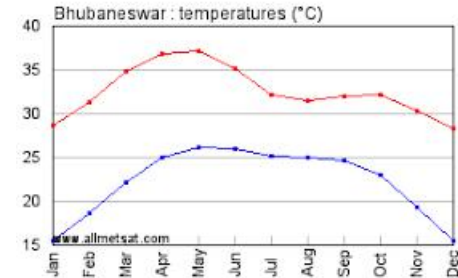

- a. The temperature of Bhubaneswar during a week was  $35^{\circ}\text{C}$ ,  $34^{\circ}\text{C}$ ,  $36^{\circ}\text{C}$ ,  $38^{\circ}\text{C}$ ,  $39^{\circ}\text{C}$ ,  $40^{\circ}\text{C}$  and  $44^{\circ}\text{C}$ . What was the average temperature of the city?
- b. A coffee shop's average sale for a week was Rs. 4977. Find the total sale of the shop of that week.
- c. The cost of 1 kg of basmati rice is Rs. 59.78. Find the cost of 15 kg of basmati rice.
- d. Rahul got 87 in mathematics, 80 in science, 78 in english, 79 in history, 82 in geography.  
If the average mark of Rahul in 6 subjects is 80. Find the mark of hindi.
- e.  $12.36 + 20.03 + 15.28$  frame a word problem using the number and operation.

ANSWER

# Revision Work

**I. The temperature of Bhubaneswar during a week was 35°C, 34°C, 36°C, 38°C, 39°C, 40°C and 44°C. What was the average temperature of the city?**

Temperature during the week =

35°C, 34°C, 36°C, 38°C, 39°C, 40°C and 44°C.

Average temperature =

$$\frac{35 + 34 + 36 + 38 + 39 + 40 + 44}{7} = \frac{266}{7} = 38^{\circ}\text{C}$$

Thus, the average temperature of the city is **38°C**.

# Revision Work

**b. A coffee shop's average sale for a week was Rs. 4977. Find the total sale of the shop of that week.**

The average sale for a week = Rs. 4977

Total sale = Average x number of quantities

$$= 4977 \times 7 = \text{Rs. } 34,839$$

Thus, the total sale of the coffee shop for the week was **Rs 34,839** .

# Revision Work

**c. The cost of 1kg of basmati rice is Rs. 59.78. Find the cost of 15kg of basmati rice.**

The cost of 1 kg of basmati rice = Rs. 59.78

Cost of 15kg of rice =  $59.78 \times 15$

= Rs. 896.70

Thus, the total cost of 15kg of basmati rice is  
**Rs 896.70**

Rough

$$\begin{array}{r} 59.78 \\ \times 15 \\ \hline 29890 \\ 5978 \\ \hline 896.70 \end{array}$$

# Revision Work

d. Rahul got 87 in mathematics, 80 in science, 78 in english, 79 in history, 82 in geography.

If the average mark of Rahul in 6 subjects is 80. Find the mark of hindi.

Marksheet in Excel		Marksheet in Excel		Marksheet in Excel						
Roll No.	English	Hindi	History	Geography	Total	Science	Total Marks	%	Pass/Fail	Grade
17	51	54	25	25	25	385	31%	Fail		
17	72	44	18	36	54	330	65%	Pass	D	
18	79	80	87	85	88	435	73%	Pass	C	
19	86	73	84	92	88	430	82%	Pass	B	
18	1	11	92	37	83	324	51%	Fail	D	
19	39	39	39	39	39	324	29%	Fail	A	
18	78	85	88	81	73	454	10%	Pass	D	

Marks scored in maths= 87

Science= 80

English = 78

History= 79

Geography= 82

Total in 5 subjects= 406

The average of total marks= 80

Total marks =  $80 \times 6 = 480$

Mark in hindi =  $480 - 406 = 74$

Therefore , he got **74** in hindi.

# Revision Work

e.  $12.36 + 20.03 + 15.28$  frame a word problem using the number and operation and solve the same.

The weight of a sack of potatoes is 12.36kg , a sack of rice is 20.03kg and a sack of dal is 15.28kg. What is the total weight of the grocery items?

Weight of sack of potatoes = 12.36 kg  
Rice = 20 .03 kg  
Dal = 15.28kg

$$\begin{array}{r} \text{Total weight of the groceries=} \\ 12.36 \\ + 20.03 \\ 15.28 \\ \hline 47.67 \end{array}$$

So, the total weight of the groceries is **47.67kg**.

The logo for 'Learning Outcomes' features the words 'Learning' and 'Outcomes' in a large, bold, black font with a yellow outline. To the left of the text is a blue graduation cap with a tassel. Above the letter 'i' in 'Learning' is a red apple with a green leaf.
