

Chapter-6

USING MOUSE

STUDY NOTES

Mouse

- It is small
- It looks like a real mouse.
- It has two buttons on it.

It has a long wire which is fixed with the CPU

Uses of mouse:

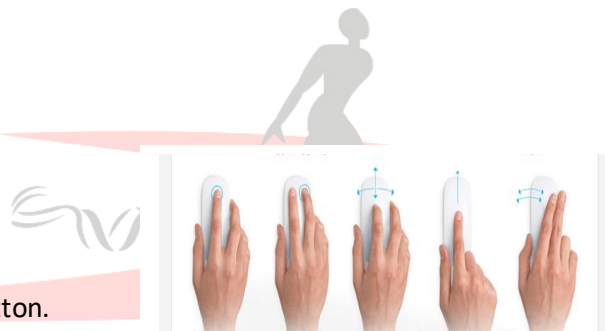

- It helps us to draw pictures.
- Point and select any item on the monitor.
- Play games.

How to hold and move a mouse?

- Place your index finger on the left mouse button.
- Place your middle finger on the right mouse button.
- Rest your palm on the mouse.
- Move the mouse on the mouse pad.

Using the mouse buttons

- Pressing the mouse button once is called clicking

Double click:

- Pressing the left mouse button twice quickly is called Double click.
- It makes two click sounds and opens an item.

Right click:

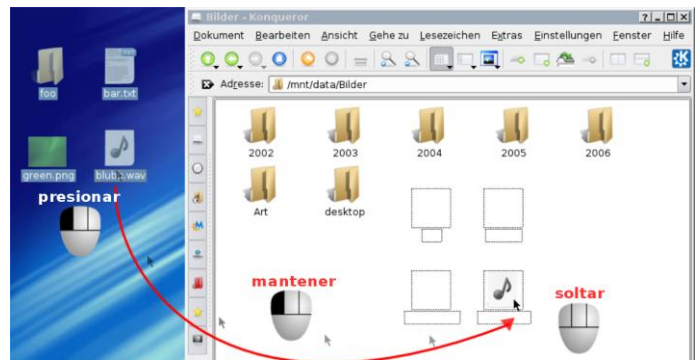

- Pressing and releasing the right mouse button once is called Right click.
- It will show you list of commands on the monitor.

We see a small arrow moving on the monitor called as Mouse Pointer.

Drag and Drop:

Drag and drop is used to move an item from one place to another on the monitor by the help of mouse.

Brain Developer
