

Chapter- 1

About Me

STUDY NOTES

LET'S LEARN:

- My name is Lavanya
- I am a girl
- I am in class 2
- I live in Cuttack
- I am 7 years old
- My hair is black
- My favourite colour is pink
- My favourite game is badminton

GROWING UP:

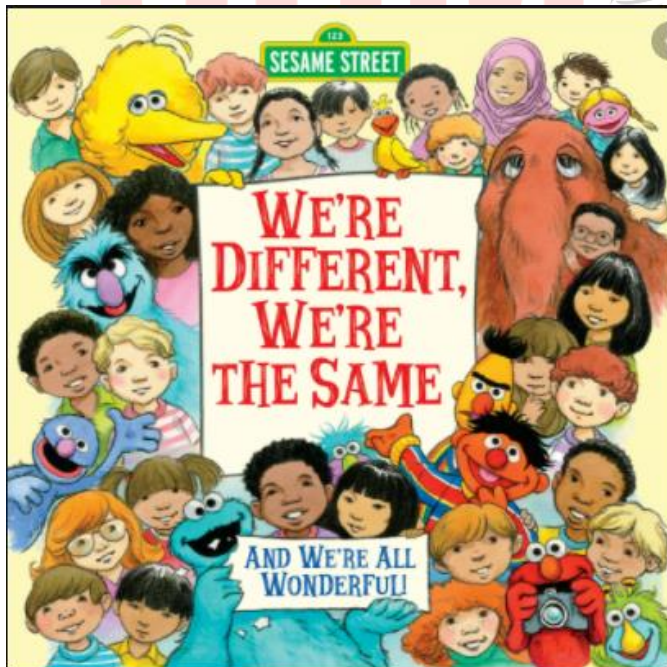

Each year, children grow a little. As you grow, you become stronger and taller. The shape of your face also changes. A new-born baby has no teeth. Most children have 28 teeth by the time they are two years old.

You will be able to do many more things on your own as you grow up. You will now be able to brush your teeth, eat your food, wear your clothes and go to bed on your own. Some things may not change even as we grow. The colour of your hair and eyes often remain the same. Our birthmarks also stay.

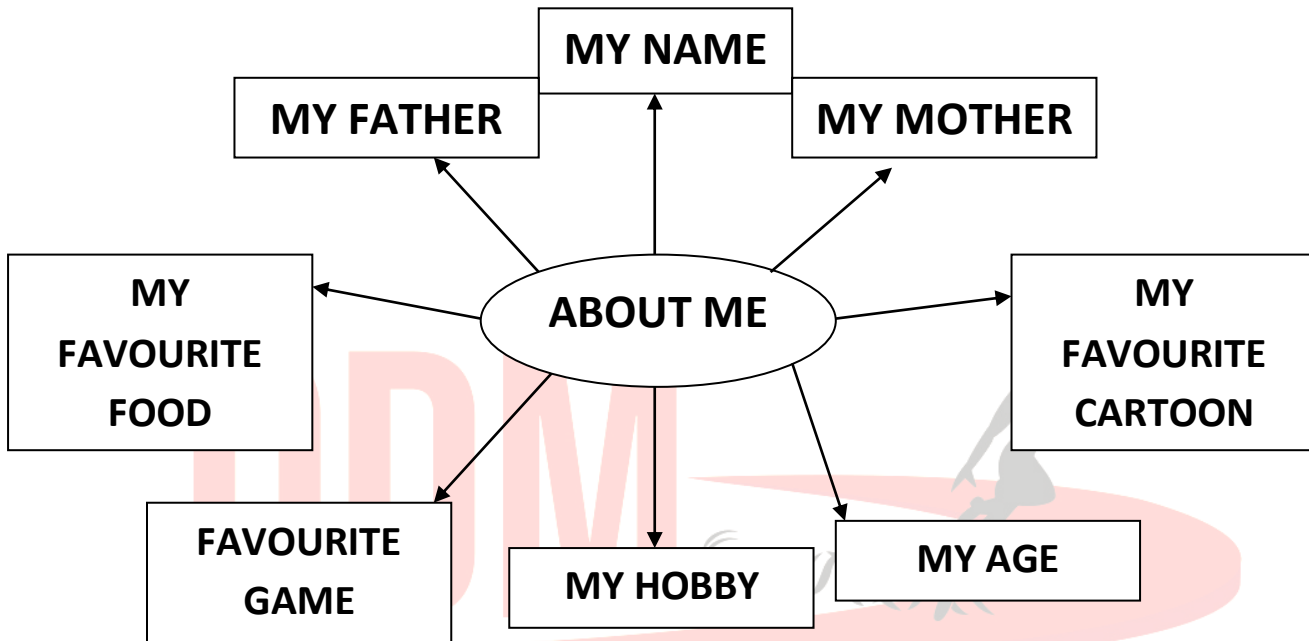

SAME AND DIFFERENT:

Look around your class at your classmates. Each of you is different in some ways. Some of you have long hair, while others have short hair. Some have brown eyes, while some have black. Some have black hair, while some have brown. Some are tall, while some are short.

But all of us are also the same in many ways. All of us have two eyes, a nose and a mouth.
