

SESSION : 7
CLASS : IV
SUBJECT : MATHEMATICS
CHAPTER NUMBER : 16, 17 & 18
CHAPTER NAME : MONEY, DATA HANDLING & PATTERNS
SUBTOPIC : REVISION WORK – 4(FILL IN THE BLANKS, DO AS DIRECTED).

CHANGING YOUR TOMORROW

LEARNING OBJECTIVE

- Enable the students to recall the chapters through this revision work.

REVISION WORK - 4

A. Fill In The Blanks.

- 1) The symbol of US Dollar is _____.
- 2) ₹4 = _____ paise.
- 3) The presentation of collected information in an arranged and sorted way is known as _____.
- 4) The way of representing the numeric data in the form of pictures is known as _____.
- 5) The pattern consisting of colours, designs or shapes is called a _____ pattern.
- 6) Arrangement of numbers according to a rule is called a _____ pattern.
- 7) To convert rupees into paise, multiply the amount by _____.

REVISION WORK - 4

B. Do as directed.

- 8) Convert ₹56 and ₹654 into paise.
- 9) Convert 67,865p into rupees.
- 10) Aish had ₹996. She did shopping for ₹567.50. How much money is left with her now.
- 11) 66, 77, 88, _____, _____.
- 12) Subtract ₹598.75 from ₹245.25.

REVISION WORK - 4

B. Do as directed.

13)

- (i) How many bulbs were sold on Friday?
- (ii) On which day maximum number of bulbs were sold?
- (iii) If one bulb was sold at the rate of Rs 10, what was the total earning on Sunday?
- (iv) Can you find out the total earning of the week?
- (v) On which day minimum number of bulbs were sold?

ANSWER

REVISION WORK - 4

A. Fill In The Blanks.

- 1) The symbol of US Dollar is **\$** .
- 2) ₹4 = **400** paise.
- 3) The presentation of collected information in an arranged and sorted way is known as **Data handling** .
- 4) The way of representing the numeric data in the form of pictures is known as **400** .
- 5) The pattern consisting of colours, designs or shapes is called a **400** pattern.
- 6) Arrangement of numbers according to a rule is called a **400** pattern.
- 7) To convert rupees into paise, multiply the amount by **100** .

REVISION WORK - 4

B. Do as directed.

8) Convert ₹56 and ₹654 into paise.

We multiply 56 by 100.

$$\begin{aligned}\text{₹ } 56 &= 56 \times 100 \\ &= \mathbf{5600 \text{ p}}\end{aligned}$$

We multiply 654 by 100.

$$\begin{aligned}\text{₹ } 654 &= 654 \times 100 \\ &= \mathbf{65400 \text{ p}}\end{aligned}$$

9) Convert 67,865p into rupees.

2nd 1st

$$\begin{array}{ccccccc} 6 & 7 & 8 & . & 6 & 5 & \end{array} \quad \text{Put a dot after the 2}^{\text{nd}} \text{ digit from the right.}$$
$$= \mathbf{₹ 678.65}$$

REVISION WORK - 4

B. Do as directed.

10) Aish had ₹996. She did shopping for ₹567.50. How much money is left with her now.

Aish had money = ₹ 996

She spend money on shopping = ₹ 567.50

She has money now = ₹ 996.00 – ₹ 567.50 = ₹ 428.50

	₹	p
	8 15	10
	996	00
–	567	50
<hr/>		
	428	50
<hr/>		

So, she spend total ₹ **428.50** money in shopping.

REVISION WORK - 4

B. Do as directed.

11) 66, 77, 88, 99, 110.

12) Subtract ₹598.75 from ₹245.25.

$$\begin{array}{r} \text{₹} \quad \text{p} \\ 598 \quad 75 \\ - 245 \quad 25 \\ \hline 353 \quad 50 \end{array}$$

REVISION WORK - 4

B. Do as directed.

13)

(i) How many bulbs were sold on Friday?

Ans. 14

(ii) On which day maximum number of bulbs were sold?

Ans. Sunday

(iii) If one bulb was sold at the rate of Rs 10, what was the total earning on Sunday?

Ans. 180

(iv) Can you find out the total earning of the week?

Ans. 860

(v) On which day 10 number of bulbs were sold?

Ans. Thursday

LEARNING OUTCOME:

Students are able to recall the chapter through this revision work.
