

**SESSION :6**

**CLASS :4**

**SUBJECT : SOCIAL SCIENCE**

**CHAPTER NUMBER: 10**

**CHAPTER NAME : SOILS OF INDIA**

**SUBTOPIC : ACTIVITY**

---

**CHANGING YOUR TOMORROW**

---

- **Most people in India depend on agriculture for their livelihood. So, soil is very important to us. It is one of our most important natural resources.**

# SOIL EROSION

- Take two containers and put soil in both the container.
- Pour water in the container containing only the soil.
- Show how without plants, the soil is eroded.
- Next pour water in the container having plants.
- Explain how the container having plants prevent the soil from eroding.
- Conclusion- We should plant more trees as the roots of the plants and trees protect soil erosion.

**HOMework**

**No Homework**

## **LEARNING OUTCOME:**

**The learners will be able to know**

- **About different reasons for soil erosion.**
- **Different ways to protect the soil from eroding.**

**THANKING YOU**
