## GREED IS CURSE

Once there was a girl named Riya sitting in a park and crying loudly. An old woman heard her and enquired. She replied that she had nothing to eat. The old woman gave her a “Magical Pot” and warned her not to misuse it. Her mother became happy to know about the “Magical Pot”.

Riya's mother did not listen to the warning given by the old woman and out of greed she rushed near the pot and asked for unlimited food. The pot poured out endless food and covered the whole house in no time.

Riya realized that there is something wrong with pot and she rushed into the house and she found that because of her mother's greed they could not utilize the magical power the pot.

## LEARNING OUTCOME:

- The students answer the questions based on the context correctly.
