Swarit Nath class-6 sec B

1. What are the different properties of eraser tool?
2. What is the difference between pain bucket tool and ink bucket tool?
3. What is frame?
4. What is key frame?

### Answers

1. The different properties of eraser tool are Erase normal, Erase fills, erase lines, erase selected fills and erase inside.
2. Pain bucket tool is used to fill the enclosed areas of an object with colours in a single click. Ink bottle tool is used to change the stroke colour, width and style.

of lines on shape outlines.

3. Frames in an animate can be defined as the little rectangular cells, which appear on the time line and are used to control and organise the content of your movie.

4. Keyframes are the special types of frames where you can define change in the object for an animation like position, colour, shape etc.
