

## Home assignment

- 1 How can you change the row height and column width?
- 2 What is a Flash Fill explain with help of example?

- 1 on the Home tab in the cells group, click Format > Cells > Size, click Row Height. In the Row height box, type the value that you want.
- 2 Flash Fill automatically fills your data when it senses a pattern. For ex- you can Flash Fill to separate first and last name of a single column.
