

Chapter- 8

MEASUREMENT

WORKSHEET

I. Fill in the blanks :

- a) My pen is 10 cm long.
- b) The length of a river is measured in km.
- c) 1 m = 100 cm
- d) 1 kg = 1000 g

II. Do as directed

A) Convert the following into centimetres:

- 1) 14 m 30 cm
- 2) 83 m

1. 14 m 30 cm in to cm
 $14\text{ m } 30\text{ cm} = 14 \times 100\text{ cm} + 30\text{ cm}$

B) Convert the following into metres:

- 1) 796 cm in to m
- 2) 796 cm = 7.96 m

2. 83 m in to cm

A - $796 \div 100 = 7.96$

$\therefore 7.96\text{ cm} = 7\text{ m } 96\text{ cm} = 7.96\text{ m}$

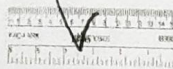

$83 \times 100\text{ cm} = 8300\text{ cm}$

C) Circle the weights that you will use to measure the following:

- 1) 2 kg apples

D) Tick the things that are used to measure length:

----- END -----
