① What are the different properties of Eraser tool?

Ans- The eraser tool helps the user to erase unwanted lines and fills of an object from the stage.

② What is the difference between paint bucket tool and ink bucket tool?

Ans- The Paint Bucket tool is used to fill the enclosed areas of an object with colour, in a single click. This tool is also used to fill the areas that are not completely closed.

~~It is used to change the stroke col~~
The Ink Bottle Tool is used to change the stroke colour, width and style of lines or shape outlines.

③ What is frame?

Ans- Frames are little rectangular cells, which appear on the timeline.

④ What is key frame?

Ans- Keframes are the special types of frames where the user can define any type of change in the object for an animation like position, colour, shape, etc.
